

WHITE SLAVE RING IS FOUND

2 GIRLS ARE LURED BY ADS

Three Men Arrested, Accused of Enticing Young Women

Placed Advertisements in Papers for Filing Clerks

SAN FRANCISCO, July 9.—That an organized gang of white slave exists in San Francisco is the belief of Detective Sergeant Purman of the white slave detail today, as the result of the arrest of three men, who are held in detention at the city prison and against whom statutory charges will be placed tomorrow. It is believed that the men are the local agents of a white slave ring operating throughout the West.

George W. Reader, John Sullivan and Harry Douglas, who claim to be magazine solicitors, are the men under arrest. They were taken into custody today in a downtown hotel. Following an investigation by Detectives Furman, McDermott and Barron. All of the men under arrest were well dressed and appeared to be prosperous beyond ordinary measure.

GIRLS DISAPPEAR

Several days ago the police were notified of the mysterious disappearance of 15-year-old Florence Ephron of 522 1/2 Linden avenue, and later on of Evelyn Parkes, 15 years old, of 331 Fulton street.

Following the Parkes girls disappearance, the mother gave the detectives a picture of her in which, it developed, appeared also the Ephron girl. In tracing the case the detectives learned that Reader, Sullivan and Douglas had inserted ads in the newspapers asking for young girls to fill positions as filing clerks. The ads instructed applicants to apply at different apartment hotels. In the case of the Parkes and Ephron girls, who are being held in the detention home, the charges against the three men were brought.

APPLY FOR POSITIONS

According to the police, proprietors of different hotels, used as headquarters by the alleged white slave, declared that there had been a large number of applicants for positions, and the police are now searching for clues to the whereabouts of other girls who have disappeared from San Francisco during the last few months. It is believed that the advertisements were but a trap to lure them from their homes with the intention of sending them away from the city. There have been several mysterious disappearances and the police are now endeavoring to connect them with the three men who are in custody. The charges against the men will be filed tomorrow. In the meantime the police are trying to learn more of their identity.

N. E. A. FOR OAKLAND

Convention Elects Dr. Jordan President and Indorses Woman Suffrage.

ST. PAUL, Minn., July 9.—Oakland, Cal., was unanimously chosen today by the National Education Association in session here as the convention city for 1915. The gathering next year will be held in August, precise dates to be designated later.

Dr. David Starr Jordan, chancellor of Leland Stanford University, was elected president of the association this morning. His candidacy was unopposed. President Swain automatically became first vice-president.

The report of the committee on resolutions, approving woman suffrage and equal pay for teachers regardless of sex, was adopted without a fight. Regarding woman suffrage the resolution said:

WOMEN JUBILANT

"The association regards efficiency and merit rather than sex as the principle on which appointments and selections should be made and therefore declares itself in favor of the political equality of the sexes and equal pay for equal services."

Women delegates were elated at the adoption of the report and declared they had won a notable victory.

Another report stating that the salaries of teachers should be "increased and adjusted to the standards of teaching required by the American teacher" was adopted.

Physical inspection of school children was approved by the committee, which recommended also dental inspection. The report was adopted.

Regarding sex hygiene, the committee directed attention to the "grave dangers, ethical and social, arising out of the present state of affairs."

CONVICTS IN FIGHT FOR LIFE

ENDEAVORERS HEAR WORDS OF WISDOM DELEGATES BEGIN BUSINESS SESSION

Matins and Bible Hour Open Program of Day

NOAH AND ADAM LACKED HONOR, SAYS MINISTER

"There was no saloon in all the garden of Eden," declared Dr. L. A. McAfee of Berkeley this morning at the Christian Endeavor Convention. He made that statement while addressing the delegates upon "The Christian Endeavor Covenant."

In the course of his remarks he carefully analyzed the seven covenants of the Bible and described how each was broken. Thus he led up to the modern covenant, which was built upon an inner understanding of the Divine Will, he said.

Of course, Adam was not strictly honorable, or he would not have broken the covenant," said Dr. McAfee. "Neither was Noah honorable, nor many of those great ancestors of the human race with whom covenants were made but who did not keep their sides of the agreement."

With a quiet hour service at 6:30 this morning in the First Methodist Episcopal Church the first matins of the twenty-seventh annual Christian Endeavor Convention were said by the delegates, who are attending the convocation, which opened last evening for a four-days' session in Piedmont Pavilion.

Several hundred Endeavorers took part in the early service. Professor Howard W. Kellogg of the Occidental College, Los Angeles, led the services and delivered the gospel message.

The service was followed by a Bible study meeting at 8 o'clock in Piedmont Pavilion, where H. P. Rankin, general secretary of the State Association, presided, while Dr. E. O. Breiden directed the lesson. After a short intermission, a conference hour was conducted by the society secretaries. Alfred Carlson of Sacramento superintended, were speakers.

NUMEROUS BIBLE CLASSES

In several denominational churches Endeavorers gathered for Bible study conferences at 8 o'clock this morning, and simultaneously the same program was being held in the Piedmont Pavilion. The doors of the following

HIGHWAYMAN ATTACKS PAL

Both Sentenced to Five Years, They Battle in Cell

"I'll Kill You in San Quentin," One Threatens

SAN FRANCISCO, July 9.—Fifteen minutes after Superior Judge Dunne had sentenced them to five years each in San Quentin prison for highway robbery, William Williams and Geo. Ford, once accomplices in crime, were fighting for life in their cell in the city prison today.

Ford, a powerful man, might have slain Williams had not Deputy Jailor Joost heard the scuffle and gone to the rescue. Williams, when the officer unlocked the cell door and entered, was unconscious. Two of his teeth were out and Ford, grasping him by the throat, was beating his head against the steel wall. He was bleeding from several wounds. And Ford was not unscathed. Medical treatment was necessary for both men.

Ford and Williams were pals in the robbery for which five years in prison was meted out today. Ford accused Williams some time ago of giving information to the police which led to their conviction.

"I'll kill you when we get to San Quentin," Ford threatened Williams with today when they left the courtroom after sentence had been imposed.

But despite the threat the police locked the two men in one cell, pending their removal to the penitentiary. The fight followed.

WARRANT IS ISSUED

To Extradite Hamilton for Obtaining Money Under False Pretenses.

Despite declarations that the District Attorney's office would refuse to grant requisition papers to bring Frederick Keats Hamilton, alleged forger and bigamist, from Boston, if he is captured, to Oakland, a warrant was issued today, Assistant District Attorney James M. Koford announcing that the only hitch was on the matter of the charge to be preferred. The warrant issued charges Hamilton with obtaining under false pretenses the sum of \$300 from the relatives of Mrs. "Johnny" Mae Dunbar, who, it is charged, he married in Sacramento after deserting his real wife, Bertha Arlett Connor Hamilton, in Oakland.

Letters received today from Bertha Connor, the San Diego bride, divulged the names of two other women who were victims of Hamilton's marriage frauds. Miss Connor wrote that one woman lived in Riverside. The fifth was Emelia Erickson of Los Angeles, it is said.

That Hamilton has probably left Boston and may not be captured when the Boston police are advised that the warrant is out for his arrest is indicated by a telegram received today by Chief of Police Walter J. Petersen from Inspector McGarr of the Boston Police Department.

The telegram brings me the information that Hamilton was in Boston, but that at present the police are unable to locate him. He may have escaped by this time. They do not know."

MAY HAVE FLED U. S.

It is known that Hamilton attempted to leave Boston, but was prevented from doing so when he was unable to cash a check to pay for transportation. It is thought he may have left the United States.

Inspector St. Clair Hodgkins stated that Hamilton had passed other checks in San Francisco and that he lived with several women, but did not marry them.

"There was no disagreement between myself and Chief Petersen," declared Koford, "save as to the charge. Chief Petersen wanted to charge Hamilton with obtaining money under false pretenses."

(Continued on Page 3, Col. 5.)

BRENTWOOD IS SAVED BY 200 FIRE-FIGHTERS

BRENTWOOD, July 9.—Brentwood escaped destruction late yesterday only after 200 men had desperately fought into control a fire which was started in a grain field a mile northwest of town by a spark from the engine of a passing train. For three hours the fight raged and the town was not pronounced out of danger until 5 o'clock, when it became necessary to backfire within twenty feet of a lumber yard on the outskirts. Between 60 and 100 acres of standing grain, it is estimated, was destroyed, while the flames consumed several hundreds of acres of stubble.

Scores of fire-fighters responded within a radius of twenty miles to calls for assistance sent out by telephone.

FREE PASS SCORED

Called a "Menace to Institutions of a Free People" by Commission.

WASHINGTON, July 9.—Characterizing the distribution of free transportation by railroads as a "menace to the institutions of a free people," the Interstate Commerce Commission today reported to the Senate the results of its investigation under Senator Lea's resolution directed against the Louisville and Nashville and the Nashville, Chattanooga and St. Louis Railroads.

The report says that during 1913 the two roads distributed free passes representing more than 11,000,000 miles of travel, valued at \$240,000.11 to more than 34,000 individuals in every walk of life.

The report says the Louisville and Nashville gave in the following numbers: United States Senator, 1; Representative, 1.

(Continued on Page 2, Col. 7.)

Bay Cities Men Talk On Annexation Plan

SAN FRANCISCO, July 9.—Informal discussion of the proposed amendment to the constitution providing for the consolidation of cities offered by Los Angeles was held today in the St. Francis Hotel by the Hands Around the Harbor Committee. A number of prominent San Francisco and Oakland representatives were present. The committee gathered at luncheon and several members took up the question from various angles relative to the effect of the proposed amendment upon the cities about the bay.

Harrison Bell of Oakland, chairman of the committee, was not present today and his place was taken by R. B. Hale.

Others present were William Esberg and Geo. B. Boardman; Horace Allen, president of the Downtown Association; W. D. Pennington, Morning News; W. J. Dwyer, editor of the California Development Board; W. C. Tuckey of San Mateo; Henry T. Scott, Newton Lynch of the San Francisco Chamber of Commerce.

From Oakland were City Attorney Ben F. Woolner, Joseph E. Cairne of the Oakland Commercial Club and O. E. Hilde.

Further meetings will probably be held in the near future upon the subject of the proposed amendment. The commercial bodies about the bay are taking up the matter to ascertain how far-reaching the proposed legislation will be.

BUILDING TRADES TO ISSUE STATEMENT ON STOCKTON STRIKE

[By Associated Press.] STOCKTON, Cal., July 9.—Fifty union employees of another big lumber concern walked out today rather than handle a load of lumber sent in from an open shop plant.

The walkout today came as a result of an "open shop" order instituted yesterday by the Merchants' Manufacturers' and Employers' Association, comprising 332 employing firms. The first revolt against the order came yesterday when fifty-five men walked out of one lumber company and ten from another.

There are no union men engaged at any of the lumber plants this morning, most of which are practically closed down. The executive committee of the Building Trades Council is in session this morning and will issue a statement to the public some time today.

The business men's organization has no change in union wage scales or in hours, but will insist on open shop and removal of union cards. Some union leaders hold that their men should not quit their jobs until some union principle is attacked and say the removal of cards or signs is not cause for walkouts.

A dozen special agents of as many unions are here from international bodies consulting with the union men, but no public action is reported. On part of the employers, it is said, that help can be secured as men walk out, but so far no outside labor has been brought here. The lumber shops affected expect a number of employees to arrive here today.

COUNTY MAY FACE TAX FIGHT

Spring Valley Water Co. Seeks Data on Assessments

Refund on Riparian Rights Followed Action Last Year

Preparing for what may result in a suit against the county on the riparian rights assessments of the Spring Valley Water Company, attorneys for Spring Valley visited the Hall of Records and Courthouse, going over the books of County Assessor Horner, and noting the riparian rights deeds that he has this year incorporated into his assessment rolls. While refusing to give any information regarding their plans it was admitted by the company's representatives that the investigations were for a basis to protest this year's assessments.

The assessments of former years were protested and the matter taken into court with the result that the Alameda County Superior judges sitting en banc decided that the assessments were not valid, and following an appeal to the Supreme Court, which resulted in an affirmation of this decision, these taxes were refunded to the corporation, about \$80,000 being involved.

This year Assessor Horner made a riparian rights assessment, but so modified his procedure that he believes he has gotten around several points of difficulty. In establishing the fact of the riparian rights he has copied into his records the numbers of deeds under which these are held by the corporation, the names of those deeding such lands or rights, and brief descriptions of the territories involved. This is set forth in his annual report, issued today, and which the attorneys looked into. Henry A. Rogers, a Spring Valley attorney, refused to state what procedure his company planned, but admitted that his work was being done with a view to protecting the assessment should the company deem such a course proper.

IS SISTER SLAYER?

Southerner Receives a Wire Warning Him Against Her.

ATLANTA, Ga., July 9.—Mrs. J. W. Nelms, when shown today, admitted that she had enlisted the aid of the police of California, Louisiana, Texas and Georgia in an effort to clear up the mystery surrounding a letter received recently from her daughter, Mrs. Dennis, in which the latter intimated that she had killed her sister and intended to take her brother's life.

Mrs. Nelms said that Mrs. Dennis and Miss Beatrice Nelms recently left Atlanta for New Orleans, Houston, Tex., and other points and that she now has no idea where they are.

Mrs. Dennis formerly was postmistress at East Point, a suburb of Atlanta. Miss Beatrice Nelms before leaving this city, was engaged in business.

SAN FRANCISCO, July 9.—Haunted with fear that death may be lurking for him wherever he turns about the city, Marshall Nelms, a young southerner and a graduate of Annapolis, who has been in San Francisco but a short time, is searching today for his sister, Mrs. Eloise Dennis, of Atlanta, Ga., who, he has been informed in telegrams from his mother, is here seeking to kill him.

Young Nelms was sought by the police last night in response to a telegram from the chief of police of Atlanta, which was as follows:

ATLANTA, Ga., July 8, 1914. To Chief of Police, San Francisco: See Marshall Nelms, 1458 Hyde street. Inform him his mother here received letter from his sister, Louisa, postmarked

(Continued on Page 3, Col. 3.)

SECRET DIVORCE FILE IS SCORED BY JURIST

SAN FRANCISCO, July 9.—"The secret divorce file is a rich man's court."

"At the present time almost anybody with influence can put anything on secret file. Possibly it would be a good thing if the court were given power to read complaints and determine if they are of such nature that to withhold their contents was for the public welfare."

Judge Sturtevant is at present presiding over the case of the

the province of the clerk of the court.

Baseball-Gambling
Arrest Again Made

SAN FRANCISCO, July 9.—A second
arrest was made today in the
war on gambling in the Pacific Coast
League. William R. Sturgeson,
proprietor of a cigar stand, was
caught with a marked gold piece in
his possession, which had been used
to buy a betting ticket on yesterday's
game between Venice and Oakland.
He will come up for trial tomorrow
in the police court.

Youth's Suicide Is
Fifth in His Family

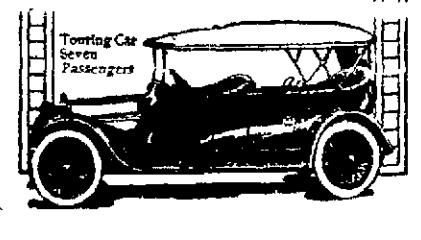

COUNCIL BLUFFS, Ia., July 9.—

KAHN'S This Is the Most Profitable Day of the Week for Our Customers

WIRE WARNS THAT
DEATH MENACES

Brother Receives Message
That His Sister Plans to
Kill Him.

(Continued From Page 1)

San Francisco, July 3, stating
she killed her sister Beatrice in
New Orleans and intends to kill
her brother Marshall. Louise
and Beatrice left Atlanta four
weeks ago to see about some
financial matters. Super insur-
ity. Investigate and advise quick.
J. L. BEAVERS,
Chief of Police.

ANOTHER TELEGRAM.

While search was being made for
Nelms he appeared at the Central po-
lice station, where he told Lieutenant
Layne that he feared his life was in
danger and produced this telegram,
which he had received and which he
read:
"Look out for Eloise. She has
killed Beatrice. Wire. MAMA."
The detective and the visitor com-
pared notes with the result that at
the end of their conference they came
to the conclusion that one of the
strangest cases the police have been
called upon to handle for years had
been presented. Chief of Police White
immediately wired to New Orleans
to inquire if the murder mentioned
had been committed there. He learned
that it had not, whereupon the case
took on a peculiar aspect, which, up
to noon today, had not been cleared
up.

Nelms has been employed in the
offices of the Prudential Life Insur-
ance Company and rooms at 1453
Hyde street. He received the tele-
gram from his mother when he ac-
crued home last evening and at once
appealed to the police. Detectives re-
viewed the evidence contained in the
two telegrams, but are as much mysti-
fied as ever.

SISTERS ON BUSINESS TRIP.

Mrs. Eloise Dennis, a sister of
Nelms, was recently heard from at
New Orleans, where she had gone on
business with her sister Beatrice,
who is the one supposed to have been
murdered.

Several days ago Nelms received a
letter from his mother inclosing a tele-
gram his sisters had sent her from
New Orleans. The message reported
that both women were having a good
time and had returned from Texas
and were on their way to Atlanta via
New Orleans. The telegram was
dated June 26.

Whether or not Mrs. Dennis had
arrived in San Francisco is a ques-
tion that is puzzling the brother. The
warning sent by his mother was with-
out further explanation and today in-
quiries sent to Atlanta by Chief of
Police White have not as yet been
received. It is believed, however,
that telegrams will be forthcoming
during the day and in the meantime
young Nelms and detectives are
searching the hotels to find out if his
sister has registered here. Owing to
the uncertainty surrounding the case
Nelms is going about with consid-
erable trepidation. He stated last night
that he could make nothing of the
case and that he knew of no reason

why his sister should have designs
on his life.

EXPECT DEVELOPMENTS.

Developments are expected at any
time. Nelms is keeping a careful
lookout for the possible appearance
of his sister, whom, if the inferences
of the telegram are true, has sud-
denly become intent upon taking his
life. Nelms, while he was reticent
regarding his family affairs, declared
that there had been no insanity in
his family and he could not account
for his sister's actions if the reports
are true.

It was only after the police had
hunted up Nelms and shown him the
telegram received from the Atlanta
police chief that he fully understood
the nature of his mother's warning.

Last night both Nelms and the po-
lice sent telegrams of inquiry to New
Orleans to ascertain if any murder
in which Beatrice Nelms could have
been figured had been committed there,
and until replies to these dispatches
are received it cannot be known
whether Mrs. Dennis' statements are
simply the effect of hallucinations or
whether she actually has committed
a crime.

BEGIN SEARCH.

The police last night began a sys-
tematic search for Mrs. Dennis, armed
with an accurate description of her
given by Nelms. It is stated that
in the city of July 3, they said, it prob-
ably would be comparatively easy to
locate her, or at least find where she
has gone.

No one seems to have any knowl-
edge of why the woman should wish
to kill her brother. It is stated that
when she and her sister went to New
Orleans from Atlanta both appeared
to be in the best of spirits, and Mrs.
Dennis showed not the slightest signs
of being mentally unbalanced.

Nelms is at present in the employ
of the Prudential Insurance Com-
pany. He is also a graduate of the
United States Naval Academy at
Annapolis. It is said, but was unable
to obtain a commission in the Navy.

Ex-Vacationists All

in "Sunburned Squad"

There's a "sunburned squad" in the
courts of Alameda county this week—
and it's all laid to the door of the
vacation period. The latest addition
to the "squad" appeared today when
Superior Judge T. W. Harris returned
from a vacation in the mountains of
Colorado, where he hunted, fished and
acquired the coat of tan that gave
the squad its name. He will resume
his work on the bench Monday.

Assistant District Attorney Walter
J. Burpee has returned from a fishing
trip with more than tan—for he is
suffering from a severe case of sun-
burn and also declares he weighs 150
pounds against 165 when he left
the office. District Attorney W. H. L.
Hynes, who will soon return from his
vacation, writes that he has a coat
of tan that will rival that of any man
in the courthouse.

ISSUE WARRANT
FOR HAMILTON

Alleged Bigamist Is Charged
With Obtaining Money
Fraudulently.

(Continued From Page 1)

extradite the man on a forged war-
rant. We felt that to press such a
charge would require a man, a pro-
fessioner, who had, and also that inas-
much as witnesses could not be
brought here from outside the State,
we might have trouble in such a
trial. The charge of obtaining money
under false pretenses could be easily
proved, all witnesses being in Oakland.
Mrs. Kinner, sister of Mrs. Dunbar,
and her husband would be the chief
witnesses. As to the bigamy case,
that could be handled at Sacra-
mento.

FAVOR EXTRADITION.

"We will recommend extradition on
the charge we issued the warrant for,
if the police locate the man. As a
matter of fact, Chief Petersen and I
discussed the matter without dis-
agreement."

The promise that the warrants
would be issued by the district at-
torney's office came last night after
numerous stormy sessions between
Chief of Police Walter J. Petersen and
Deputy District Attorneys W. B. Smith
and James Koford. The last session
lasted for over an hour and was held
behind closed doors in the offices of
Chief Petersen.

DECLARES HASTE NECESSARY.

Petersen urged the necessity of
haste, of the fact that Hamilton has
made every effort to elude the police,
that he is far away in the East and
that if delays were insisted upon he
might escape. He pointed out that
the warrant for Hamilton was re-
quested some days ago and that if it
had been issued he could have been
located immediately after he was
located in Boston.

The controversy waged loud and
long and ranged over half a dozen
other cases in which the police believe
they have just complaint against the
district attorney's office. Letters that
were warmly worded and which had
passed between the two offices were
referred to. The combatants dis-
cussed the case of "Sir" Harry West-
wood Cooper, where District Attorney
Hynes halted the police in extradition
proceedings the day that the officer

Cashier A. J. Mount of the Central
National Bank, with whom Hamil-
ton's draft for \$1000 was placed,
would take the matter up with the
National Banking Association to have
an investigation made as to why the
warrant had been refused.

RIVALS COOPER CASE.

Before the matter had been straight-
ened up it was feared at police headquar-
ters that it would be impossible to re-
futation the accused man, whose exploits
have rivalled those of "Sir" Harry West-
wood Cooper, who was captured in South
Africa, after bigamously wedding Anna
Mibrath, an Oakland nurse, and at-
tempting to flee a local bank with a
forged draft.

In Cooper's case the police had made
all preparations to apprehend him when
the district attorney recommended that
the State Department decline to issue
extradition.

BLACKSMITH RECEIVES
INJURIES FROM HORSE

As the result of attempting to ride a
balky horse Jack Callow, a blacksmith,
this morning was brought to the
Emergency Hospital suffering from nu-
merous bruises, cuts and contusions sus-
tained when the animal threw its rider
to the ground. Callow, who lives at 222
Seventh street, declares that the ani-
mal threw him off before he was aware
of trouble. He is an experienced rider.

Famous Terrace of
Quebec in Flames

QUEBEC, July 9.—The board walk
on DuRoi Terrace, Quebec's famous
thoroughfare overlooking the St. Law-
rence river, caught fire today and for
a time threatened the Chateau Fron-
tenac Hotel.

More than 500 feet of the terrace
collapsed shortly before 3 o'clock and
it was feared that the stone wall over-
looking the Frontenac.

The fire was getting beyond control
of the firemen. At 3 o'clock two
houses were on fire and the flames
were again eating their way toward
the Frontenac.

Refugees at Puerta
Plata in Cross-Fire

WASHINGTON, July 9.—The forty-
two American and Porto Rican refu-
gees who were rescued at Puerta
Plata, July 26, by United States sailors
and revenue cutter men, were ex-
posed to the fire of both Dominican
federalists and Legationists, according to
an official report received here today.

The firing was so heavy June 25
that the removal had to be postponed,
but the next day boats from the bat-
tleship South Carolina made the res-
cue. Bullets fell all about them, but
the refugees were landed on board
the revenue cutter Albatross with
none injured.

RICH WOMAN IS FOUND IN COMA

Surgeons Attending Her Cannot Diagnose Strange Unconsciousness.

SAN FRANCISCO, July 9.—Mrs. Myra Hoyt, a widow and former well-to-do real estate woman of Los Angeles, is lying in the Central Emergency Hospital in an unconscious condition, which is puzzling the physicians who are attending her.

Mrs. Hoyt was found in her room in the Continental Hotel late yesterday gasping for breath and semi-conscious. Physicians worked over her for several hours, but were unable to diagnose the case. They ordered her removal last night to the hospital.

Friends who visited her today say that some time ago she underwent an operation whereby her skull was trepanned, and it is feared that this had something to do with her brain trouble.

A box of headache powders lying on her dresser indicated that she may have taken a small quantity of the drug for a headache. Mrs. Hoyt was found by a tailor's messenger, who entered the room by mistake. He summoned the hotel attaches and physicians were called in.

REPUTED WEALTHY. Mrs. Hoyt is the widow of a former merchant of Marshalltown, Iowa. For some time she has been living in Los Angeles, where she owned considerable property. She is also said to be an heir to a large estate which is in litigation.

Recently she went into the delicatessen business in a department store at 1041 Market street. She had also recently been in Spokane, Washington, and dispatches from the northern city last night are to the effect that she had intended to return to Los Angeles and prove on some government land.

Pending further advice from friends and relatives, Mrs. Hoyt is being carefully watched at the hospital. Unless she regains her normal condition within a short time, she will probably be removed to a private hospital. She had been at the Continental Hotel as a guest for some time.

DETECTIVES TO ATTACH COBURN'S BANK ACCOUNT

SAN FRANCISCO, July 9.—Bank accounts aggregating several hundred thousand dollars belonging to Loren Coburn, the aged Pescadero millionaire recently restored to competency by a jury trial, will be attached in Redwood City this morning with a view of recovering \$5000 for professional services.

The suit of the bureau by a group of attorneys and other creditors of Coburn, who look upon it as a test case. Among those attorneys are Archie J. Treat, W. P. Henshall and Early Craig, all of whom represented Coburn in different capacities while he was fighting to be restored to competency in Redwood City last San Francisco.

Coburn has been refusing to pay the bills of the attorneys on the ground that legal services are altogether too costly, even for the purse of a millionaire. The attorneys, on the other hand, say that Russell Sage never had anything on Coburn in the line of economy.

The services for which the suit of the Los Angeles firm has been brought were rendered by detectives who investigated the talesmen called to the trials of Coburn in Redwood City and San Francisco. The accounts of Coburn to be attached are held by the First National Bank and the Redwood City Bank.

"OLD HORSE SALE" NETS BIG SUM FOR ORPHANS

SAN FRANCISCO, July 9.—The annual "old horse sale" of unclaimed property in the hands of the police department was held yesterday afternoon at the "old horse sale" for the relief fund. There were about 1000 packages in the sale and in all there was \$500 in coin contained in them, which was extracted before the sale. There was something over \$700 made by the bidders.

HERD OF HOGS HIDES ON S. F. WATERFRONT

SAN FRANCISCO, July 9.—Somewhere along the waterfront there are forty-three fat hogs hiding. They strayed from a herd which was being driven to Lombard street wharf from Fairfax and Newhall streets, by employees of Roth, Bloom & Co. Report was made to the harbor police station that the animals were lost and that the owners believed them to be somewhere along the Embarcadero. The police and owners are searching today.

WHAT DYSPEPTICS SHOULD EAT

A PHYSICIAN'S ADVICE. Indigestion and practically all forms of stomach trouble are, nine times out of ten, due to acidity; therefore stomach sufferers should eat a diet which is devoid of eating food that is acid in nature, or which by chemical action in the stomach develops acidity. Unfortunately, a few food eliminators are most foods which are pleasant to the taste as well as those which are rich in blood, flesh and nerve building properties. This is the reason why dyspeptics and stomach sufferers are usually so thin, emaciated and lacking in that vital energy which can only come from a well fed body. For the benefit of those sufferers who have been told to exclude from their diet all starchy, sweet or fatty food, and are trying to keep up a miserable existence on gluten products, I would suggest that they should try a meaty diet of foods which you may like, in moderate amount, taking immediately afterwards a teaspoonful of bisulphated magnesia in a little hot or cold water. This will neutralize any acid which may be present, or which may be formed, and instead of the usual feeling of uneasiness and fullness, you will find that you feel agreeable with you perfectly. Bisulphated magnesia is doubtless the best food corrective and antacid known. It is a most active action to take to exclude from the diet the acidity of the food contents, and thus removing the source of the acid irritation which inflames the delicate stomach lining. It does more than that; it could possibly be done by any drug or medicine. As a physician, I believe in the use of medicine whenever necessary, but I must admit that I cannot see the sense of dosing an inflamed and irritated stomach with drugs instead of getting rid of the acid—the cause of all the trouble. Get a little bisulphated magnesia from your druggist, eat what you want at your next meal, take some of the bisulphated magnesia.

WOMAN ADMITS PLACING STRYCHNINE IN WHISKY

YOUNGSTOWN, Ohio, July 9.—Mrs. Emma Daugherty, under arrest for suspicion in connection with the death of her son, John, and the serious poisoning of Samuel Davis, last accused to detectives yesterday that she put strychnine in whisky which the two victims drank. She said she plotted with her brother, James Snyder, to kill Orwig to get \$250 life insurance made in her favor. Snyder is under arrest and detectives claim he also has confessed. Investigation is also being made of the sudden death several years ago of Mrs. Daugherty's husband, from whom she inherited considerable wealth.

At Local Playhouses

ORPHEUM.

Liddle Cliff, the English boy comedian, is the chief attraction this week at the Orpheum. He is greeted by each audience with much enthusiasm and his act is the big drawing card of the week.

"Dainty Marie," billed as a puzzle, lives up to the soft impeachment and combines the flying ring, trapeze tricks, dancing and other stunts into one bright bit of nonsense.

Homer Miles, supported by a good company composed of Helen Ray, Rex Reckard and Charles Darragh, present a funny playlet, and it is full of wit and comical situations.

The Mentaphone artist Rellow, the fellow who makes his own music by striking his face in all sorts of ways, keeps his audience in an uproar all the while he is under the spot.

Amber Brothers present an acrobatic and balancing act full of merit and new tricks.

The Australian woodchoppers are holdovers and continue to delight and interest their audiences with their chopping, and other woodmen contests and sports.

Frances De Grosseart offers an exceptionally fine singing act, and her appearance is in full keeping with her act.

Acrobatic stunts cleverly done by Will and Kemp, and the usual run of Orpheum exclusive motion pictures round out a good, clean and interesting bill this week.

OAKLAND PHOTO

A Klax and Erlanger production, "The Billionaire," also "The Fatal Wedding," will be the new bill at the Oakland Photo beginning today and continuing until Saturday.

The Billionaire, John Doe, who owns a controlling interest in the earth, decides to spend the week in Gay Paree and Monte Carlo, and leaving behind him his wife, Fong, his valet, and a retinue of servants.

Doc breaks the bank at Monte Carlo and becomes a philanthropist, giving all his winnings to a beautiful and mysterious blonde who has lost heavily and is about to take poison. She in return gives Doc a card written in French.

This play is just one laugh after another.

"The Fatal Wedding," from the Biograph studio, is a story of love, hate and jealousy.

PANTAGES

"A Night in the Slums of Paris" gives ample opportunity for those Europeans, Milla, Mimmi Amato, Sig. Aurelio Cecchi and a score of foreign dancers, to demonstrate the Apache dance at the Pantages Theater. The Dance du Courrou and Dance of the Beggars is given with realism.

George ("Waltz Me Again") Wilson, the old time blackface minstrel comedian, keeps his audience in titters. Bob Abright, the male Mabel, a favorite vocalist of good appearance and voice, sings effectively.

"The Village Priest," a playlet featuring Charles King, Virginia Thornton and Erman Seaver, introduces the advanced Suffragette; Kurny, Boesch and Robinson in the hilarious farce, "Fun in a Music Store," Derrit and Derrit, an acrobatic chap, and a clock wire walking young woman, Romano and Carmel, the singer and harpist; and comedy motion pictures round out a worth while bill.

COLUMBIA

Some of the fun promised in the "Zona" when the Panama-Pacific Exposition swings open its gates to the world next year, is being offered this week at the Columbia Theater in "Picasso 1915."

Dillon and King score their usual successes with clever performances of two toy balloon vendors. Others conspicuous in the cast this week are George Spaulding, Ruby Lang, Jack Wise and Vilma Stech. The musical program consists of various late song hits is a feature of the production.

IDORA PARK

With a set of false whiskers, Ferris Harman has succeeded in putting on something more than a new appearance at Idora park this week. He has made himself into a new character, so that the old Harman of musical comedy that demanded the farcical and the patently absurd is forgotten, and a new comedian, with a sense of the finer values, a comedian that can command tears as easily as smiles, emerges. In "Louisiana Lou" the role of Jacob Ladoski, originally written for Burner Derrard, Harman presents a new side of his talent, and wins a new place in the stage world. He gives to the pathetic scenes just the right sense of proportion, that they balance the higher parts and make of the musical comedy a fine two hours entertainment.

HURRIES HOME TO FIND WIFE GONE

Then While He Takes Vacation She Brings Suit for Divorce.

Going home to tell his wife that he had been granted two weeks' vacation, Nicholas J. Mitchell found that she had left the home at 2715 Fruitvale avenue and had left a note saying she had returned to her relatives. Following this the woman in the Superior Court, charging her husband with many acts of cruelty. She is now at the home of her mother, Mrs. E. R. Scott, in San Francisco, and Mitchell, who is Pacific coast manager of the H. J. Heinz Company, is out of the city on a vacation. Attorney W. B. Rinehart filed the papers for Mrs. Mitchell.

Lillian Owens has been granted an interlocutory decree of divorce from Andrew Owens, on testimony that he made her pay for furniture and railroad fares and also treated her cruelly.

Margherita Brezzo filed a cross-complaint in the Superior Court to the suit brought against her by Antonio Brezzo, alleging an affinity. Mrs. Brezzo says she did not provide her with sufficient food. She sets forth in her complaint that when he sent her to come to this country from Europe he provided her with only \$5 for food on the trip across the Atlantic.

KIDNAPING CHARGE TO BE HEARD UNDER WRIT

Judge B. V. Sargent of Monterey county, sitting in the court of Judge Everett J. Brown, will probe, on July 12, the charges and counter charges surrounding the alleged kidnaping of 9-year-old Gwendolyn Howard, found in the Dominican convent in Mission San Jose and declared to have been taken there by her aunt without the permission of Mrs. Lillian Howard, the mother, with the ultimate end of making her an actress. A writ of habeas corpus was issued yesterday by the judge, ordering the child's appearance in court. The mother, who is an invalid, had left the child, according to complaint, in the care of one aunt and the other, Mrs. Moscop, is alleged to have asked her niece to visit her and then to have spirited her away to the convent. All witnesses will be heard at the habeas corpus proceedings.

OAKLAND BOYS IN CAMP AT SHASTA

Crowds Greet Young Musicians Along Entire Sacramento Valley.

IN CAMP AT SISSON, CALIF.

EDITOR TRIBUNE.—Thirty-five members, composing the second band of the Oakland Boys' Club, which left Oakland on June 11 is now in camp at Sisson, Calif. Since leaving Oakland the band has camped and gave concerts in the following towns: Napa, Vallejo, Benicia, Martinez, Vacaville, Winters, Woodland, Williams, Orland, Corning, Red Bluff, Cottonwood, Anderson, Redding, Kennett, Sisson and Willits.

The towns yet to be visited before returning home Saturday morning, August 1, are as follows: Shasta Springs, Dunsmuir, Chico, Oroville, Marysville, Gridley, Colusa, Wheatland, Roseville, Rocklin, Auburn, Colfax, Grass Valley, Nevada City, Sacramento, Lodi, Stockton.

We spent July 4 at Sisson. This was a very interesting place for the boys, right under the towering peak of Mt. Shasta, which is covered with snow.

To see snow all around the tourists was very interesting to the Oakland boys. Since we have been on this tour we have been caught in four severe thunder storms. Practically everything we had through on these occasions.

On one of these nights the boys did not have their tent up and it was a hard task to get the boys to sleep. In the morning the bright sun coming out the next day, made it possible to dry our clothes and continue the tour.

WARM DAYS.

We have had exceedingly warm weather since the 4th. It is cool in Sisson.

Our camp is in a camp lettuce, tomatoes and turnips and have learned to wash them and wash them. We have learned to wash them and wash them. We have learned to wash them and wash them.

HARBOR AGITATION WELL UNDER WAY

Organization Representatives to Promptly Take Up the Question.

The placing of the administration of Oakland's harbor in the hands of a harbor commission of five will be immediately taken up with Mayor Mott, the city council and the city attorney, by a committee of five from the Oakland Chamber of Commerce, the Oakland Commercial Club and the Merchants' Exchange.

Representatives of the three organizations met yesterday at the request of the Commercial Club to take up the harbor question, which has been under discussion for over a year. M. J. Layman acted as chairman. A committee to take the matter before the city council was appointed, consisting of M. J. Layman, W. E. Gibson, George C. Pardee, Wilbur Walker and John T. Scott.

The representatives of the commercial bodies acting as an executive committee did not take long to arrive at a decision favoring the appointment of harbor commissioners.

The Progress and Prosperity Committee and the Manufacturers' Committee of the Chamber of Commerce, the Commercial Club and the Merchants' Exchange have been working together for some time toward one end—that Oakland's waterfront may be developed into one of the most important ports on the Pacific Coast.

The Harbor Committee of the Commercial Club and J. H. Bradley of the Chamber of Commerce have been engaged in investigating the harbor conditions for some time.

The vessel is now declared to be in first-class condition, having been fitted with a set of four Scotch marine boilers, mechanical burners and a new stern wheel, in addition to being retimbered. Four months have been spent in repairing her, the total cost of the work being \$25,000.

The Corcoran will be given her retrial trip next Saturday and, following the final tests, will again be put in service on the Sacramento river.

STEAMER H. J. CORCORAN RAISED AND REFITTED

The river steamer H. J. Corcoran, after lying for nearly a year and a half at the bottom of the bay, has been raised and refitted for service. It was nearly eighteen months ago that the Corcoran and the steamer Seminole, during the prevalence of a dense fog, collided off Angel Island, the former going to the bottom. Recently Captain Riddout had the Corcoran raised and taken to Moore & Scott's shipyard in this city, where a

ing matter to a head.

KRAFICHENKO HANGED FOR ARNOLD MURDER

WINNIPEG, Manitoba, July 9.—John Krafichenko was hanged today for the murder of H. M. Arnold, manager of the Bank of Montreal, at Plum Coulee, Manitoba, on December 2, 1913, whom he shot in a holdup.

WOMAN MAY OBTAIN HER FREEDOM

District Attorney Predicts Discharge of Mrs. Carman

MINEOLA, L. I., July 8.—It is not at all certain that there will be enough evidence for an indictment against Mrs. Florence Carman of Freeport, charged with the murder of her husband, Dr. Edwin Carman, June 30. This is the opinion of the district attorney, who expressed this opinion today.

"It is not unlikely," said the assistant district attorney, "that when Mrs. Carman appears on Monday before Coroner Norton, who will then be acting in the capacity of justice of the peace, she will be discharged."

At that time Mrs. Carman's attorney will have a right to cross-examine the witnesses who testify against the prisoner.

Dr. Carman found his wife, arrested yesterday, in better spirits when he visited her in jail here today. She seemed to have recovered her composure.

WIFE BREAKS DOWN

After her husband left, Mrs. Carman broke down in her cell and her condition became so acute that the prison authorities were alarmed and physicians were summoned.

She was taken to the warden's office, where she lay down on a couch and became quieter after sedatives had been given her. She refused, however, to go to bed.

George Levy, attorney for Mrs. Carman, said today that he had discovered two new witnesses, whose testimony he considered extremely valuable. He also said he had information that two of the witnesses, whose testimony had been instrumental in causing the arrest of Mrs. Carman, had been far from the Carman home at the time of the murder.

CONTRADICTS STORY

MINEOLA, July 8.—George Levy, counsel for Mrs. Carman, today made a seven-page affidavit for Flora Raynor, who was with Elwood Barden, an insurance agent, on the night of the murder. It was Barden's testimony that he had seen a woman running away from the window of Dr. Carman's office after the shot was fired that was the direct cause of Mrs. Carman's arrest. Miss Raynor's affidavit contradicts the story of Barden.

Mayer Newman, who said that a friend of his now in Kansas City, spirited away a pistol for Mrs. Carman, was arrested, charged with carrying a pistol, today.

District Attorney Smith and counsel for Mrs. Carman agreed this afternoon to postpone the examination of Mrs. Carman, set for next Monday, until a week from next Monday.

WARBURG RELENTS

Banker Withdraws Decision Not to Serve on Federal Board.

WASHINGTON, July 8.—Paul Warburg, a New York banker, has reconsidered his decision that President Wilson should withdraw his nomination as a member of the Federal Reserve Board on the condition that he will not consent to appear before the Senate Banking Committee to be cross-examined.

After receipt of a telegram from Warburg today, it was said by officials close to the President that an active fight would be made for the confirmation. It was also stated that the banking committee fail to report the nomination favorably, the President expects the Senate as a whole to act.

Warburg's telegram to the President was not given out, but after its receipt officials at the White House said the name would not be withdrawn. The telegram followed a visit by Senators Thomas and Shafroth to the White House. They are understood to have told the President that few Democrats would oppose Warburg's confirmation.

The situation as to the nomination of Thomas D. Jones of Chicago remained unchanged, and it was said at the White House that the President would continue to press for his confirmation.

A letter from the Chicago delegation of business men received yesterday by the President, endorsing President Wilson's statement in support of Warburg and Jones was made public at the White House.

"No more hopeful, helpful, finer words ever have come from the White House, and we believe they will meet with the nation's hearty approval," said the letter.

The Warburg nomination was discussed only informally today by the committee. It took up in detail the nomination of Thomas D. Jones of Chicago.

ROSEHUA OUTLINES

HYPOTHESIS OF RESURRECTION

Prophet Writes in Detail of Predictions and Teachings

(By JOSHUA, The Restorer of the Kingdom to Israel.)

EDITOR TRIBUNE: Enclosed please find a true hypothesis of the account of the crucifixion and resurrection of Jesus the Messiah, as recorded in the holy scriptures.

If it meets with your approbation I would like you to print it in your valuable paper. I do this for no other purpose than to correct a long taught error promulgated by the Gentile churches. I do not censure them in that the holy scriptures have been sealed until this day being the end of the times of the Gentiles and the casting away of my people Israel.

The Apostle Paul, who was a Jew, taught the people of Ephesus that the Gentiles were the times of the Gentiles and that the times of the Gentiles were fulfilled which terminated last April, 1914. At which time the last messenger, and forerunner of the Messiah last advent shall appear in the spirit of Elijah as did John the Baptist, the forerunner of his advent to set up the tabernacle of David that was fallen down. Amos 9:11 L. Acts 15:16, 17, and restore all things even the Kingdom unto Israel. Matt. 21: 4, 5. Matt. 21: 43. Acts 3:19 to 21.

You will pardon me for referring to these events, which are upon us, I am sure.

Yours respectfully,
JOSHUA W. WYKES
994 Fifth street, Oakland, July 7.

NEW HYPOTHESIS

A true hypothesis relating to the crucifixion and resurrection of Jesus the Messiah as taught by the Prophet Joshua at the Tabernacle, Exodus, Forty-seventh street and San Pablo avenue, Oakland, Cal.

For more than 3200 years, the Gentile religions of the world have been teaching that Jesus the Messiah was crucified on Friday and the following Sunday, the first day of the week, he rose from the dead; also, during this time, He was in the tomb of Joseph three days and nights (a period of 72 hours), a doctrine for which there is no scriptural authority.

Let us see how long Jesus was to be in the grave. To do so I must quote His own words. Matt. 12:40. Jesus, in conversation with the scribes and Pharisees who asked Him to show them a sign, said: "An evil and adulterous generation seeketh after a sign, and there shall no sign be given to it, but the sign of the Prophet Jonas. For as Jonas was three days and three nights in the belly of the whale, so shall the son of man be three days and three nights in the heart of the earth."

In the book of Jonah, 1:17, we are told that the Lord prepared a great fish to swallow up Jonas. "And Jonas was in the belly of the fish three days and three nights." In the following scriptures we are told that Jesus rose from the dead. Luke 24: 46. Mark 9: 9-10. Luke 24: 46. Mark 9: 9-10. Luke 24: 46. Mark 9: 9-10.

Having established by the holy scriptures that Jesus was actually dead over three days, that He was in the heart of the earth three days and three nights, and that He rose from the tomb on the third day, I shall now proceed to find out how long He was actually in the heart of the earth.

First, we can establish the time when He was crucified, whether it was Friday or Saturday. Quoting from the King James translation, Matt. 28, 1-5 reads:

"In the end of the Sabbath (the Gentile Sabbath) Mary Magdalene and the other Mary came to the sepulchre, and behold there was a great earthquake; for an angel of the Lord descended from heaven, and coming rolled away the stone and sat upon it. His appearance was as lightning and his raiment as snow. And for fear of him the women did quake and became as dead men. And the angel answered and said unto the women, 'Fear not ye, for I know that ye seek Jesus which was crucified. He is not here, for He is risen, as He said: come, see the place where the Lord lay. And go quickly and tell His disciples that He is risen from the dead, and behold He will go before you into Galilee, there ye shall see Him: lo, I have foretold to you.'"

TRANSLATIONS AGREE. I shall now quote the same narrative as recorded in the authorized revised version.

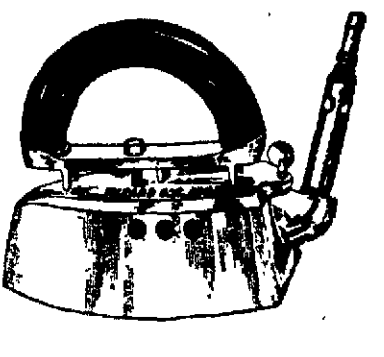

"Now late on the Sabbath day, as it began to dawn towards the first day of the week, came Mary Magdalene and the other Mary to see the sepulchre, and behold there was a great earthquake; for an angel of the Lord descended from heaven, and coming rolled away the stone and sat upon it. His appearance was as lightning and his raiment as snow. And for fear of him the women did quake and became as dead men. And the angel answered and said unto the women, 'Fear not ye, for I know that ye seek Jesus which was crucified. He is not here, for He is risen, as He said: come, see the place where the Lord lay. And go quickly and tell His disciples that He is risen from the dead, and behold He will go before you into Galilee, there ye shall see Him: lo, I have foretold to you.'"

In Mark 16:1-8 and Luke 24, 1-8, we have the record where Mary Magdalene and the other Mary came to the sepulchre, and behold there was a great earthquake; for an angel of the Lord descended from heaven, and coming rolled away the stone and sat upon it. His appearance was as lightning and his raiment as snow. And for fear of him the women did quake and became as dead men. And the angel answered and said unto the women, 'Fear not ye, for I know that ye seek Jesus which was crucified. He is not here, for He is risen, as He said: come, see the place where the Lord lay. And go quickly and tell His disciples that He is risen from the dead, and behold He will go before you into Galilee, there ye shall see Him: lo, I have foretold to you.'"

Without a shadow of a doubt, Jesus actually rose from the dead late on the Sabbath, and did not rise on Sunday, as taught by the Gentiles. And no where within the lids of the Bible are we told He rose from the grave on the first day of the week, the Sunday. Sunday, Solis. It is a positive fact He was in the heart of the earth three days and three nights. He was in the heart of the grave on the third day, and not the third night. This being true, He could not have been in the grave but one night and one day.

The year Jesus was crucified, the Passover came on Friday, which was our high Sabbath. Thursday was the preparation day, upon which no one could touch a dead body and partake of the Passover. Wednesday was the day preceding the

Friday and Saturday Demonstrations

Something New. The WIZARD GAS IRON

Can be operated at an expense of 3 1/4c per day.

Connects with any gas jet.

Special price during this demonstration,

\$2.45

Sells regular at \$3.50.

This special price for the two days is to introduce the iron.

Demonstration being held in Kitchenware Dept., Basement.

BUYS \$710,000 OF OAKLAND'S BONDS

Firm of E. H. Rollins & Sons Acquire Issue at Private Sale.

Bonds totaling \$710,000 were sold by the city council today to E. H. Rollins & Sons of New York, Chicago and San Francisco. The bonds were \$500,000 of the Municipal Auditorium bonds for the completion of the structure and bear interest at 4 1/2 per cent, and \$210,000 of the Oakland municipal improvement bonds, bearing interest at 5 per cent. The Rollins company offered to purchase the 4 1/2 per cent bonds at par, while a premium of \$125 will be paid on the 5 per cent bonds.

The sale was made after the council had received an offer in writing from Rollins & Sons. Informal offers had also been received from other firms. It was explained that the sale could be offered to better advantage and at less cost by putting it through by private sale than by public auction.

The action was taken on the recommendation of Commissioner of Finance and Revenue John Forrest, and with the approval of Assistant City Attorney Charles Bearis. The bonds, which provide for the purchase of land and rebuilding of the Clawson school, and for the completion of the municipal auditorium must be delivered by September 10, subject to the approval as to form and legality by the public expert firm of Dillon, Thompson & Clay.

PLACED ON PROBATION DESPITE FORMER TERM

John McKee, convicted of second degree burglary, in entering a rooming house on Broadway taking \$3 and an old revolver, this morning was placed on probation for a term of five years by Superior Judge William H. Donahue.

According to Probation Officer Leonard Compton, had been addicted to drugs and drink, and had ceased his drug habits, acquired during a former term in Folsom prison.

"So long as the man has done no wrong save to himself," declared Donahue, "I am willing to take a chance. One drink, and he goes back to prison, however."

McKee was remanded to the custody of the probation officer, J. A. Wright, convicted of having accompanied McKee on the robbery which resulted in the trial, is also free on a five-year probation period. The man's aged mother was in court during the hearing today and it was largely on her solicitations that probation was granted.

PRISONERS RIOT IN N. Y. PENITENTIARY

NEW YORK, July 9.—Fifty of the most notorious prisoners in the "pen" on Blackwell's Island broke all bounds last evening in the mess room, and but for the timely arrival of Warden Patrick Hayes and a score of deputies, the inside guard of the mess room would have been massacred. Four prisoners were knocked senseless with earthenware, coffee bowls weighing nearly half a pound each, thrown at them by the gang.

PARTY LEAVES TO ATTEND LAUNCHING

WASHINGTON, July 9.—A party including members of the Congressional Naval Committee and their wives and Mrs. Joseph Daniels left Washington last night aboard the dispatch boat Dolphin for Quincy, Mass., to attend the launching on Saturday of the new battleship Nevada. Secretary Daniels and Assistant Secretary Roosevelt will go to Quincy Friday by train.

From Wednesday afternoon to Thursday afternoon, Jesus was dead one day. Afternoon, He was dead two days. From Friday afternoon to Saturday afternoon, being the Sabbath afternoon, Jesus was dead and in the tomb three days and three nights. He rose between 3 and 6 o'clock from the grave on the Sabbath day, and not on Sunday as you Gentiles teach.

Will you not search the scriptures. "For in them ye think ye have eternal life," and it is they that testify to this truth.

H. C. CAPWELL CO. Clay, Fourteenth and Fifteenth H. C. CAPWELL CO.

Capwells Extend a Cordial Welcome to Christian Endeavorers

The hospitality of Oakland's Store Beautiful is extended to the city's guests. Visitors are invited to avail themselves of the conveniences and comforts of our rest and writing rooms and to make this store a meeting place with friends. Our beautiful Roof Garden Restaurant is the best place to have your luncheon and our matchless stocks afford the best opportunity of supplying all merchandise needs that may arise. CAPWELL'S is one of the show places of Oakland. From the 400-foot promenade on the roof a splendid view of the bay, the Berkeley and Piedmont hills and the business section of Oakland may be obtained.

JULY CLEARANCE SALES

Bring a Great Knit Underwear Opportunity Tomorrow

SEEKS REFUND OF FEES FOR SWITCHING

SAN FRANCISCO, July 9.—Basing its action on the recent decision of the Supreme court, the San Francisco Chamber of Commerce filed an application with the State Railroad Commission against the Southern Pacific, the Santa Fe and the Western Pacific Railroads, seeking to recover approximately \$200,000 collected since 1911 as charges for switching cars onto industrial sidings. Similar action already has been taken by Los Angeles. The complaint claims that the \$2.50 switching fee charged by the carriers against manufacturers, warehouse men and other shippers for shunting cars up on sidings, is unreasonable and unlawful. It is asked that the commission order the charge discontinued and compel the railroad company to refund charges paid by shippers during the last two years.

The action is based upon a recent decision of the United States Supreme Court, which reversed the interstate commerce commission. A similar action against the railroad company was brought by the Los Angeles commercial shippers preferring the same charges regarding the alleged illegality of the switching charge.

Attorney Seth Mann, representing the plaintiff, today said that the amount involved in rebates claimed exceeds \$200,000. It is probable, in case the local commercial body wins its fight against the switching fee, that Oakland, Berkeley and other cities about the bay and throughout the state, will seek to obtain a refund for their commercial enterprises. The action today is brought by the chamber of commerce, representing its members.

GIRL BITTEN BY DOG

Eva Minnichio, a school girl living with her parents at 1086 Thirty-second street, was bitten by a vicious dog last evening, and had to be given surgical attendance by Dr. F. I. Mackinnon. The wound was in the calf of the leg. The police were notified.

THE SIGN OF THE STAG

There are those who do not "believe in signs," but they do live on the Pacific Coast. Folks out here not only believe in signs, without being superstitious, but are the quickest people in the world to find out what a sign stands for. And in no section of the country is the sign of a good idea received with more intelligence and appreciation. The way the sign of the Stag has been received on the Coast proves this. Stag is a new and very wonderful smoking tobacco for pipe and cigarette, first placed on the market a little over one year ago. And the idea behind Stag was that a man, but satisfying tobacco, REALLY (not just "nearly") free from all bite and sting, would sweep the country in popularity. And that if such a tobacco were put up in air-tight, moisture-proof tins, instead of ordinary flimsy cigarette bags, its delicious flavor would be preserved down to the very last pipe full. The familiar picture of a Stag on the red Stag tins has become known to every smoker as the sign of a tobacco instantly distinguished by its fragrance and its flavor. Stag was the first high-grade tobacco to be put out in a tin containing just half the usual quantity for the pocket. That is the story of Stag's familiar slogan, "No bite no sting." Stag is a new and very wonderful smoking tobacco for pipe and cigarette, first placed on the market a little over one year ago. And the idea behind Stag was that a man, but satisfying tobacco, REALLY (not just "nearly") free from all bite and sting, would sweep the country in popularity. WOMEN ALLEGATES RESENT EXCLUSION

Successfully Appeal to Court
Against Order Barring
Miss McCall.

When the case against Henry Coldan was resumed before Judge Geo. Samuels, with little 12-year-old Leoa Berry on the witness stand, Miss Beatrice McCall, head of the women's protective bureau, was admitted to the courtroom. Miss McCall and Miss Theresa Rich had been excluded at the hearing last Thursday, but the order was changed today when a delegation of a dozen society and club women waited upon Judge George Samuels and the attorneys defending Coldan to ask that Miss McCall be admitted.

Miss C. Anita Whitney, former president of the Oakland Civic League, headed the delegation of women. They had learned of the drastic order subjected to several hours of grilling cross-examination without any person in the courtroom whom she knew or had confidence in. The exclusion of the women from the courtroom was made upon the demand of an attorney who appeared for Coldan with Attorneys J. J. Allen and T. J. Murphy. Judge Samuels declared that under the reading of the penal code he had no recourse but to comply with the demand.

Leoa Berry is the complaining witness. She has been under the charge of Miss Rich of the probation office. Defendant's attorney worked on the theory in his cross-examination that the child had been coached to tell a story damaging to his client and tried every means to break down her detailed account. Many conflicting statements were made by the girl and it is doubtful whether the evidence is sufficient to hold Coldan to answer.

The women explained that they believed it to be embarrassing and discomforting to the girl to be questioned without anybody being present whom she knew. Defendant's attorney stated that he would consent to Miss McCall being present and this order was issued. Women who waited upon the attorneys were Miss C. Anita Whitney, Dr. Susan J. Fenton, president of the Child Welfare League; Dr. Minora Kibbe, former president of the Oakland Civic Center; Mrs. Harriet Hawes, member of the board of education; Mrs. M. Raedger, Mrs. Agnes Phillips, Mrs. E. Larger, Mrs. A. A. Champreux, Mrs. A. J. Kennedy, Mrs. J. E. Wilson and Mrs. H. E. Averill.

Porter Seizes Gun of Bandit, Who Escapes

WATERLOO, Ia., July 9.—An attempt was made to hold up Illinois Central passenger train No. 11 by a bandit one mile east of Epworth, Ia., last night. The bandit ordered the porter to search the passengers while he stood guard with a drawn revolver. The porter replied by grabbing the bandit's gun, which was discharged several times, but no one was injured. Passengers heard the struggle and gave the signal to stop the train, whereupon the bandit freed himself and jumped off, escaping into the nearby woods.

ARCHITECT FINED FOR NOT HAVING LICENSE

SAN FRANCISCO, July 8.—Edward Helms, an architect, was fined \$50 with the alternative of 60 days in jail, by Police Judge Shortall today for failing to get a license for his practice.

ONLY SIXTEEN, GIRL VERY SICK

Tells How She Was Made
Well by Lydia E. Pinkham's
Vegetable Compound.

New Orleans, La.—"I take pleasure in writing these lines to express my gratitude to you. I am only 16 years old and work in a tobacco factory. I have been a very sick girl but I have improved wonderfully since taking Lydia E. Pinkham's Vegetable Compound and am now looking fine and feeling a thousand times better."

—Miss AMELIA JAQUILLARD, 3961 Teahouptoulas St., New Orleans, La.

St. Clair, Pa.—"My mother was alarmed because I was troubled with suppression and had pains in my back and side, and severe headaches. I had pimples on my face, my complexion was sallow, my sleep was disturbed, I had nervous spells, was very tired and had no ambition. Lydia E. Pinkham's Vegetable Compound has worked like a charm in my case and has regulated me. I worked in a mill among hundreds of girls and have recommended your medicine to many of them." —Miss ESTELLE MAGUIRE, 110 Thwing St., St. Clair, Pa.

There is nothing that teaches more than experience. Therefore, such letters from girls who have suffered and were restored to health by Lydia E. Pinkham's Vegetable Compound should be a lesson to others. The same remedy is within reach of all.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

ASK LEGISLATURE TO BUILD ROADS

Funds Needed to Complete the
Route Between San Joaquin
and Coast.

Sacramento, July 9.—In order to build connecting links between the main artery of the San Joaquin Valley and coast routes, work that was not contemplated under the \$18,000,000 highway bond issue, the State Highway Commission has decided to ask the next Legislature for an appropriation to build these roads. The funds at hand now are insufficient to do the work.

The highway engineer has been directed to survey routes from Hanford west to Coalinga, thence to the coast route, and also from Madera through Pacheco Pass to Gilroy, the matter may be laid before the Legislature.

The commission today called for sealed bids on ten more units of State highway work. The bids will be opened August 10. Plans and specifications have been prepared for the following work:

North of Hopland to Ukiah, about 11.4 miles in length, to be graded and a portion paved with Portland cement concrete.

Humboldt county, from Miranda to Denville, about 13.8 miles in length, to be graded.

Santa Clara county, from Santa Clara to San Jose, about 19 miles in length, to be built of Portland cement concrete with asphaltic wearing surface.

Santa Clara county, from the northern county boundary to San Jose, about 6.3 miles in length, to be built of Portland cement concrete.

Contra Costa county, from San Pablo Creek to Pinole, about 3.6 miles in length, to be graded.

Humboldt county, from Shively to Jordan Creek, about 5 miles in length, to be built of Portland cement concrete.

Santa Barbara county, from El Capitlan Creek to Alcatraz, about 9.3 miles in length, to be graded.

Orange county, from Calaveras to Irvine, about 9.4 miles in length, to be built of Portland cement concrete.

Imperial county, from Meyers Creek to Coyote Wells, about 6 miles in length, to be built of Portland cement concrete.

SEMPERVIRENS CLUB TO ARRANGE CELEBRATION

Representatives of Oakland commercial organizations are co-operating with the Semperverens Club of California in arranging for a celebration on July 19 to mark the breaking of ground of the \$70,000 roadway to be built from Saratoga Summit along the ridge separating the watersheds of the San Lorenzo and Pescadero creeks into the California Redwood Park, situated in the Big Basin section of the Santa Cruz mountains.

The Semperverens Club, which has named July 19 as the day for the breaking of the ground, has invited the citizens of the state to participate in the celebration. A. A. Denison, Secretary of the Oakland Chamber of Commerce; Joseph E. Cairns, secretary of the Oakland Commercial Club, and W. W. Richards, secretary of the Recreation Committee in connection with the celebration.

The last legislature appropriated \$70,000 for the building of the new road, which will open to tourists one of the most picturesque sections in the state.

COUNCIL REPRIMANDS SALOONMAN SEVERELY

Severe reprimand was administered to M. Fitzpatrick by the city council today, when a hearing was given on the charge that Fitzpatrick, in a saloon at Fortieth and Grove street, had permitted his bartender to sell a bottle of wine to Dana Cannon, a 16-year-old boy, who subsequently got drunk on the wine. The reprimand was given in a resolution introduced by Commissioner Anderson.

Chief Petersen also filed charges against Manuel Pacheco, who has a saloon at Ninety-eighth avenue. In the answer to the charges, Pacheco stated that he had sold liquor to women in room over his saloon and, according to the report made by Captain Brown of the Melrose district, he is not the actual owner of the saloon, but the place is owned and controlled by three men who are not citizens of the United States. On the basis of these charges the council authorized that the saloon be closed and pending the filing of an application for a transfer of the license to a new owner. The application will probably be presented Monday.

LAND SINKS: LASSEN VOLCANO ISN'T BLAMED

REDDING, July 9.—Trees are falling, barbed-wire fences are snapping, the ground is sinking, new springs are forming and old ones are being driven dry in the vicinity of Whitmore, twenty-eight miles northeast of Redding, according to reports drifting in this way. Whitmore is about the same distance from Mount Lassen. It is not believed that the strange happenings are in any way due to the volcano.

The chief disturbances of land are on the place formerly owned by John Whitmore, the pioneer in whose honor the settlement was named. Many apple trees have broken out on this place and fences are falling out of line. The ground is sinking and trees are falling or toppling out of plumb.

The unstable condition is interfering with land sales, and the people of Whitmore have petitioned for a transfer of the license to a new owner. An investigation will be made.

TAXPAYERS' COLUMN

All communications to the Editor of THE TRIBUNE must bear the signature and address of the writer.

ON SPARING THE ROD.

Palo Alto, Cal., July 8, 1914.

EDITOR TRIBUNE.—Your editorial headed "Spare the rod and spoil the child" is founded on Solomon as a corner-stone. If I remove the corner-stone, what becomes of your belief in corporal punishment? For Solomon did not say "Spare the rod and spoil the child," but "Spare the rod and thou shalt have a foolish child," written by Samuel Butler in 1633.

You will find on looking up the subject in the Bible concordance that Solomon did not say those words. And you will find that Samuel Butler did write them, line 214, canto, part 2.

Whipping children is common, even well high universal. Parents continue to justify themselves, generally pointing out that they whip less often and less severely than their fathers were whipped by their parents.

Beasts and punishment of all kinds grow less severe slowly from age to age, and children and spanking are early tapers of a rising standard of conduct is slower than it is outside the home.

ALICE PARK.

When Is a Price-Cut Not a Price-Cut?

Everybody has a right to their own opinion. In our opinion every price-cut is unfair, because the very idea back of it is dishonest. We can't bring ourselves to believe that it is just or right or fair or square to sell the same piece of merchandise at one price to one man at one time and at another price to another man or at another time.

We are not philanthropists. We are in business to make money just as you and your neighbor are in business for that same purpose. But if we can't make money honestly and legitimately we don't want to make it at all. No matter how big the majority is that says that Reduction Sales are right, that Sacrifice Sales are honest, that Price Reductions of any kind are square, we don't believe it. As long as we don't believe it, we will NEVER have a "Sale" and we will NEVER have a "Price Reduction."

We DO believe that

Every Price Reduction Is a Proof of Wrong Buying

It stands to reason: You buy a piece of merchandise and offer it at \$25.00 and can't sell it; then the end of the season stares you in the face and you're bound to get rid of it somehow. You cut the price to \$22.95. If that big noise and the red signs and the blue pencil don't do the work, then you try the experiment over again and mark at \$19.85, and finally maybe \$16.95.

IS THAT FAIR? IS THAT SQUARE? OR IS IT JUST A CASE OF TRYING TO GET THE UNWISE BUYER TO TAKE AWAY AT SOME PRICE OR OTHER WHAT THE WISE BUYER WOULD NOT TAKE AT THE FIRST PRICE YOU PUT ON IT?

Do Price-Cuts Cost the Merchant Money?

Do you honestly believe that any of the so-called "Price Reductions" cost the merchant money? Do you really believe that when Mr. Price-Cutting-Clothing Merchant offers you a Suit "Below Cost" at \$16.95 for which "he used to ask \$25.00"—do you believe that he paid more than \$16.95 for it in the first place?

We Sell \$25.00 Suits at \$15, Always

That means we give you a fair and square, an absolutely square and absolutely honest Saving Opportunity every minute of every day in the year. This allows us to "turn" our stock so often that we ALWAYS have up-to-date Suits to show you. There is no reason on earth why the price should be cut on down-to-the-minute Suits; and with all their Noise, with all their Scarlet Signs, with all their daubed-up windows, with all their loud advertisements—we don't believe that very many Clothing Merchants in the United States will have the nerve to claim the goods they offer at cut prices have just been received.

We Offer You Strictly Up-to-Date
Suits, actual \$25.00 garments, now
and all the time, at our one never-changing
price of.

Criminal Prosecution Of Lipton Suggested

LONDON, July 9.—Criminal prosecution of Sir Thomas Lipton, the chairman, and his co-directors in Lipton's Limited, was suggested by Sir Arthur Markham, a Liberal member, in a question addressed to the attorney-general, appearing in today's parliamentary papers.

The question, the putting of which was postponed by arrangement, asks whether in view of Justice Darling's statement that the defendants in the army canteen scandal case were acting on a system which was encouraged by the directorate of the company, the attorney-general has laid the papers in the case before the public prosecutor with a view to criminal proceedings for fraud and bribery against Sir Thomas Lipton and his co-directors.

The question arose out of the recent conviction of nine army officers and eight civilian employees of Lipton Limited on charges of receiving and giving bribes to influence the allotment of supply contracts for the army canteens.

GRANTED DIVORCE ON GROUNDS OF CRUELTY

Alice Beatrice Smith was granted an interlocutory decree of divorce in the Superior Court from her husband, Franklin Currier Smith, on recommendation of Court Commissioner Clarence Crowell to Superior Judge William H. Donahue.

She was awarded \$100 a month alimony for support of herself and three children. Elizabeth and Alice Smith, is an accountant employed in San Francisco.

Other interlocutory decrees granted today were:

Caroline Kirschner from Anton Kirschner, grounds cruelty.

Emma Pimentel from Joseph Pimentel, grounds failure to provide.

Dances Tango from Australia to U. S.

SAN FRANCISCO, July 9.—Crossing the Atlantic by aeroplane isn't it for fun with tangoing all the way across the Pacific. An Australian society girl and her friend, who had the statement, and she ought to know, for she danced her way from Sydney to San Francisco on the Union Steamship Company's liner Tahiti, which arrived today.

Miss Flayfair was the only tangoist aboard, except for Bert Graham, an American dancing master, who had been introducing the new dance in Australia.

She and Graham danced every evening.

RETIRED BROKER DIES FROM HEART DISEASE

ALAMEDA, July 8.—Lewis W. McGlaflin, 61 years old, until ten years ago perhaps the foremost broker in San Francisco, died suddenly at noon today of heart disease at his home, 2720 San Antonio avenue. He had returned last night from a visit at Santa Clara with his daughter, Mrs. J. M. Clark. He left a widow, a son, Louis McGlaflin, and two sisters, Mrs. Anna Bartlett and Mrs. Ida A. Traylor.

PLEADS WITH HUNGARIAN- AMERICANS FOR AID

PHILADELPHIA, July 8.—Count Michael Karolyi, leader of the independent wing of the Hungarian parliament, last night in an address before several thousand of his fellow countrymen of this port in a campaign for a greater democracy for Hungarians. He predicted that unless conditions were radically changed when the death of Emperor Francis Joseph occurred there would be a revolution in Hungary. The count, who is accompanied by several of his adherents in parliament, is making a six weeks tour of the United States and intends to visit all of the larger cities.

Poundmaster Mourns Loss of Faithful Dog

RICHMOND, July 9.—Teddy, the decoy dog of Poundmaster Henry Smith of this city, died yesterday. Teddy has worked as a decoy dog in the pound business for the past twelve years, in Oakland, Alameda and Richmond. He is well known in the police and official circles of the bay cities.

OPIUM DENS RAIDED BY STATE OFFICIAL

ARMONA, Cal., July 9.—Three opium dens were raided shortly after midnight today by a squad headed by Inspector F. S. Scott, of the California State Board of Pharmacy. Five Chinese, a considerable quantity of opium and paraphernalia were seized. The Chinese are in the Kings county jail.

POSILAM QUICK TO HEAL ANY DISEASED SKIN

For all Skin Affections, Posilam is the remedy unequalled in efficiency, always safe and dependable. SAN FRANCISCO CHOSEN FOR "MOVIE" CONVENTION

DAYTON, O., July 9.—The threatened split in the National Motion Picture League convention here over the election of a president was averted yesterday when M. A. Neff retired as a candidate for re-election to the presidency. Neff was the first president and organizer of the league and was the central figure in a hot fight.

New officers chosen are M. A. Pearce, Baltimore, president; T. F. Finnegan, Texas, first vice president; H. E. Corey, San Francisco, second vice president; W. R. Wilson, Columbus, Ohio, secretary and J. E. Jeap, Detroit, treasurer.

San Francisco was chosen as the next place of meeting. President Neff, in his annual address advised against five cent picture shows, urging that ten cents be charged and he also urged shorter films.

PROHIBITIVE LICENSE TO STOP ITINERANT VENDING

The city council passed to print an ordinance today imposing almost prohibitive license on itinerant vendors. The ordinance was passed at the request of the merchants association and was intended to stop the sale of cheap goods by itinerant vendors. It is similar in effect to San Francisco and other cities, and will prevent, "fly by night," from doing business in Oakland.

GRANTED INTERLOCUTORY DECREE OF DIVORCE

Maren K. Decker, of Alameda, was today granted an interlocutory decree of divorce from Robert H. Decker on the ground of desertion.

Superior court of Judge William H. Crowell. Mrs. Decker offered oral testimony to the effect that her husband had called her once during the past year, but in his mother-in-law's face, and otherwise caused her mental anguish. She was awarded the custody of their child, Robert, and Decker was ordered to pay \$10 monthly toward the support of the latter.

BRIDE BREAKS LEG IN DANCING THREE-STEP

VALLEJO, July 9.—While enjoying the social dance which followed the joint installation of officers in the Y. M. C. and Y. W. I. last Tuesday night, Mrs. John Lyons, the bride of the popular young grocerman, met with an unfortunate accident which will keep her confined to her bed for several months to come. In company with her brother-in-law, William J. Corbett, Mrs. Lyons was dancing the "three-step" and in making a turn her right leg twisted in such a manner that it was fractured in two places below the knee.

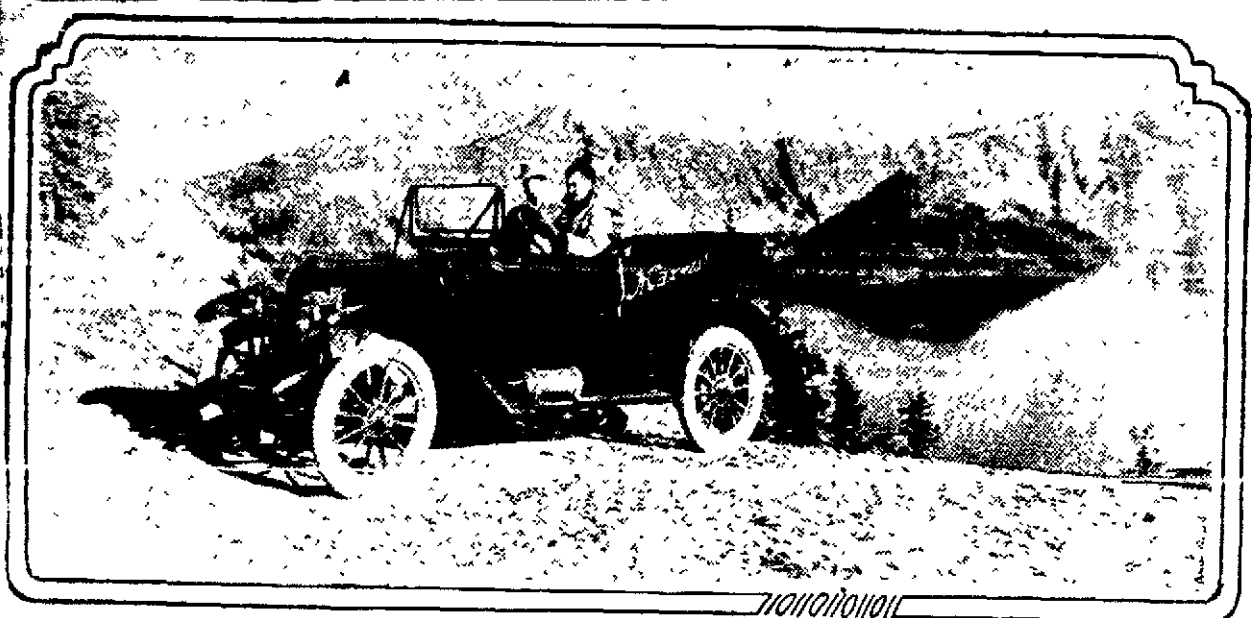

The New Baby is World's Wonder

Every tiny infant makes life's perspective wider and brighter. And whatever there is to enhance its arrival and to ease and comfort the expectant mother should be given attention. Among the real helpful things is an external abdominal application known as "Mother's Friend." It is applied to the abdominal muscles to relieve the strain on ligaments and tendons.

In a little book are described more fully the many reasons why "Mother's Friend" has been a friend indeed to women for more than two generations. This book was prepared not only to aid the inexperienced but to enable so many women to have at hand the timely help.

neatly printed form for ready reference. It should be in all homes. "Mother's Friend" is a book of almost any drug list but if you fail to find it write us direct and also write for book to Bradfield Dispensary Co., 303 Lamar Bldg., Atlanta, Georgia.

ON THE PRECIPICE ABOVE CRATER LAKE, KLAMATH COUNTY, OREGON, AN ALTITUDE OF 7,200 FEET, THE CRATER OF AN EXTINCT VOLCANO. H. C. SKINNER OF PORTLAND IS SHOWN AT THE WHEEL OF A MAXWELL "25" IN WHICH HE MADE THE TRIP TO THE CRATER IN THE PARK RESERVE.

BIG TIRE CHIEF BACK FROM EAST

'Nobby Treads' Get Enormous Run From Auto Drivers Everywhere.

(By EDMUND CRINNION.)

After a month in visiting the various factories of his company at Detroit, Cleveland, Boston, Chelmsford, and attending the sales convention in New York, C. A. Gilbert, manager of the Tire Department of the United States Rubber Company of California, returned home yesterday.

Stating that the automobile and tire business in the East, and in fact all over the country, is in a very flourishing condition, and that from all indications, it will be a record autumn for the trade—Gilbert is much elated by the trend of commerce. He has taken the past four or five months.

"During my recent visit to the Eastern factories and the main offices of our company in New York," said Gilbert, "I had an opportunity to investigate first hand, the condition of the motor car and tire market. The remarkable uplift in business that is now setting in from all directions is effecting materially the automobile and tire trade, and I confidently expect a record business six months from now on."

"Although business in all the sections in the country in which we have branches and agencies, and that means the whole United States, show a fine growth, it has remained for the Pacific Coast, to make the record showing in tire sales. Our 'Nobby Tread' sales have grown over one hundred per cent during the past four months and every indication is that this will continue and increase."

"The various plants of the United States Tire Company are running overtime. The new Morgan & Wright plant, is now in operation increasing the output of that factory fully fifty per cent. The recently built addition to the G. & J. plant in Indianapolis and the Hartford plant have increased the effectiveness of both of these factories greatly. The Canadian plant at Berlin, Ont., has shared in the general facilities, by having a new building erected, and this was needed as the Canadian business is booming. New branch

agencies have been established all over Canada, covering that section with representation, from coast to coast."

The Society of Automobile Engineers were considering a plan for the standardization of automobile tires when it left, and it is almost a certainty that their recommendation will be adopted. If it is, it will mean the revolutionizing of the tire trade for the good of both makers and users.

It is proposed to limit the output of pneumatic tires, to twelve standard sizes, including corresponding tread patterns, and for goods to limit the number of sizes to four. Practically all the tire makers have agreed to the above proposition as they realize it will be a big step forward for all concerned.

Gilbert further states that the United States Rubber Company of California was in a flourishing condition and that several new branches and agencies are being opened in the Pacific Coast territory.

TIRE MEN TO HAVE DINNER.

All of the tire dealers of Alameda county are expected to gather at this evening at the Saddle Rock Cafe by the committee appointed at the recent Goodyear Tire and Rubber Company luncheon party.

The committee is quite anxious that every tire dealer be present at this evening's gathering as matters of vital interest to his business welfare will be discussed and acted upon.

BRAKE GIVES WAY AS STAGE MAKES LAST TRIP

NEVADA CITY, July 9.—After being in existence for more than fifty years, the Downside-Nevada stage line made its last trip Tuesday.

The stage which came in Tuesday night was the last to make the trip and a mishap that would have resulted fatally but for the coyness of Driver John Goffette was narrowly averted.

The brake broke as the stage came down the Sugar Loaf grade, and the horses started on a mad run. Goffette ditched the outfit behind a woodpile and brought it to a standstill before damage resulted.

FINDINGS IN EMPRESS WRECK VOLUMINOUS

QUEBEC, July 9.—Findings of the commission which investigated the wreck of the Empress of Ireland, make 11,800 words, not only dealing with causes of the collision, but making recommendations for new precautions against disaster. The report will be submitted next Saturday.

YOUTH DISAPPEARS; THEN COMES HELP

Money Arrives Day After He Vanishes in Despondent Mood.

Despondent because he had received no reply to his request for assistance, Thomas Mahoney, 17 years of age, who has been seeking work in Oakland for a month, having come here from Los Angeles, has disappeared.

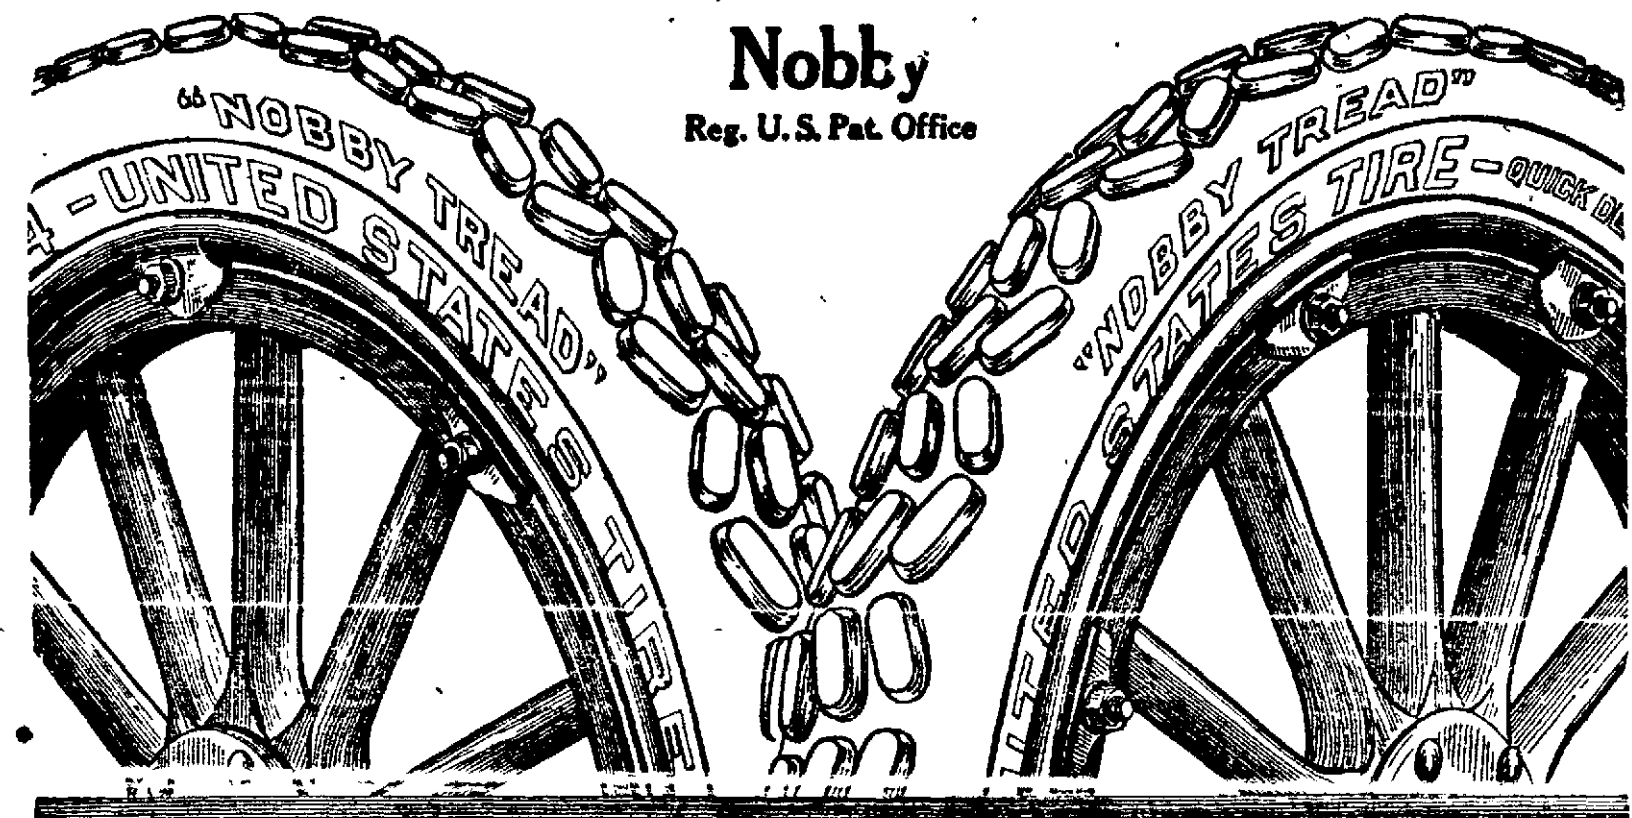

He was last seen two days ago and on the day following his disappearance a letter came from his family in Los Angeles bringing him financial aid. It is thought the boy may have taken to the road or may have attempted to take his own life. The police were asked to aid in the search being made for him by his brother, Timothy Mahoney, who is lodging at the Hotel St. George in this city.

Young Mahoney had been making his home at 2242 Eleventh avenue up to the time of his disappearance.

W. E. Glenn, 587 Eighth street, has been asked to search for him. Glenn is alleged to have been despondent. He told a friend that he had been out of work and that he thought he would end it all. Mrs. M. Turner, who asked the police to search for Glenn, said that she feared that he had committed suicide.

S. F. CRAB FISHERMEN ARRESTED AT EUREKA

EUREKA, July 9.—Four San Francisco crab fishermen residing here were lodged in the county jail last night in default of each putting up \$250 cash bail, while approximately 250 sacks of crabs, containing at least \$1500 worth of prized crustaceans, will be ordered seized upon arrival of the steamer F. A. Kilburn in San Francisco today. The men were endeavoring to evade the county ordinance which prohibits shipping crabs from Humboldt county. They were arrested six miles off the coast by Deputy Game Wardens Barnes and Benson. The men arrested were R. D. Angelo, A. Toschi, F. Cartardo and C. Bianchi. Penalties, if convicted, will be a fine of \$500 and six months.

"Stand Up" and "Deliver"

An automobile tire must "stand up" and "deliver" mileage enough to justify its first cost, or its first cost at any price is a joke.

"First cost" saving is an "ostrich way" of figuring tire economy—the only true way is to figure on the ultimate cost of your tire service.

Automobile owners learn this in time—the quicker they learn it, the quicker will they learn to buy

Business Basis Tires

That a tremendous majority of automobile owners have learned how to buy automobile tires is proved by the fact that today "Nobby Tread" Tires are the largest selling anti-skid tires in the world.

"Nobby Tread" Tires do two things—they give more mileage and they prevent skidding.

And remember this—investigations prove that with "Nobby Tread" Tires punctures are 90% less than with the average tire.

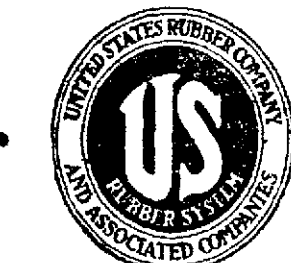

Based upon their remarkable mileage records

"Nobby Tread" Tires

are now sold under our regular warranty—perfect workmanship and material—BUT any adjustments are on a basis of

5,000 Miles

Thousands upon thousands of veteran motorists now use "Nobby Tread" Tires on their front and rear wheels through all seasons, because they give real anti-skid protection and the lowest cost per mile.

United States Tire Company

NOTE THIS:—Dealers who sell UNITED STATES TIRES sell the best of everything.

STANFORD TO RETAIN ITS MEDICAL COLLEGE

STANFORD UNIVERSITY, July 9.—After a thorough investigation of conditions in California, it is the opinion of Dr. V. C. Vaughn, president of the American Medical Association and dean of the department of medicine and surgery of the University of Michigan, that Stanford authorities have pursued the proper course in deciding to retain the identity of the Stanford medical school. Dr. Vaughn came to the coast in the spring to survey the field and his opinion is based upon an actual study of conditions. He was invited to visit the local field by President Branner of Stanford when it was thought by the authorities at the cardinal institution that it might be advisable to retain but one medical school in San Francisco and that a union of medical schools might be effected for

Vaughn's visit resulted in a critical study of the laboratories and departments on the Stanford campus, as well as those in San Francisco, but before his report had been made up for presentation the Stanford authorities had made a thorough investigation, reaching the decision that the Stanford medical school should avoid consolidation.

In Dr. Vaughn's letter of report to President Branner he said that it may develop that a consolidation of the two

university medical schools may seem advisable, but there seemed to be no wisdom in such a move at present. "Stanford," he said, "from what I can learn, can afford to develop its medical school without material hindrance to the growth of other branches and I believe that this is the wise thing to do."

CHINESE REGISTRATION MAY CHECK SMUGGLING

BOSTON, July 9.—Large numbers of Chinese of the working class have been smuggled into this country, many through this port, according to a statement issued last night by the Federal Commission on Industrial Relations which finished a three day investigation here. Fully twenty per cent of the Chinese in this country are believed to be here illegally, the Commission stated.

It was stated that the number of Chinese is increasing steadily in which whites, as well as Chinese, are interested, and which are carried across the Mexican and Canadian borders and by water from Mexico to the Pacific Coast and other Atlantic seaports. The commissioners recommend that all the Chinese now in this country be registered and that certificates be issued to them; and that special crews of inspectors be later employed and empowered to arrest any Chinese without much credentials.

DENVER JUDGE RULES AGAINST REPUBLICANS

DENVER, Colo., July 9.—Overruling a recent decision of the election commissioners of Denver county, Judge Allen in the district court decided yesterday that the Progressive party and not the Republican party was second in size on the face of the returns to the last election and entitled to share with the Democrats the appointment of judges of election in November.

The decision was rendered in the mandamus proceedings brought by Archibald A. Lee, Progressive county chairman, against Ellis Meredith Clement, president of the county election commission.

The decision, through the adjournment of the Supreme Court for the summer recess yesterday, will, it is said, form a precedent for all county

CADETS ARE APPOINTED TO MILITARY ACADEMY

WASHINGTON, July 9.—Announcement was made at the War Department today of the designation of the following

candidates for appointment for admission to the Military Academy at West Point at the beginning of the academic year, 1915:

Iowa—Ernest W. Bruhn, Manning, Kansas—George B. Barth, Leavenworth; Percy S. Lewis, alternate, Leavenworth. Texas—Virgil C. Eddieleman, Graham; Julia J. Mussel, Granger; Daniel B. Harrell, Corsicana.

HURT NINE YEARS AGO, DIES AFTER OPERATION

SEATTLE, Wash., July 9.—Judge Jesse P. Houser of Mount Vernon, Wash., judge of the Superior Court of Skagit and San Juan counties, died at a hospital here last night after an operation made necessary by injuries incurred in a hunting accident nine years ago. He was born in Indiana 60 years ago, and removed to this state from Kansas in 1890.

Ease Torment of Asthma and Hay Fever
For the discomfort and misery of asthma and hay fever use Foley's Honey and Tar Compound. It puts a healing, soothing coating over the swollen, tickling membranes, and eases the thick and choking sensation. Helps you to breathe easily and naturally. Mrs. Agatha Longacker, Fond du Lac, Wis., says: "My left lung was greatly affected by a severe cold, and one-half bottle of Foley's Honey and Tar cured me." Refuse any substitute offered. Sold everywhere.

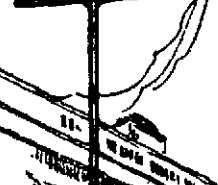

Fill the tank with RED CROWN the Gasoline of Quality

Prominent "side-walk" service stations and garages everywhere display the Red Crown sign. They'll give you the gasoline that has a "kick" in it—Red Crown, a straight distilled refinery product—not a mixture.

Red Crown signs are furnished all dealers selling this gasoline. Watch for the sign or ask our nearest agency about delivery in bulk.

Standard Oil Company

(California)
Oakland

PAID OVER \$10 A LINE FOR VERSE

Dr. John T. Kergan Wins Prize
of \$50 for Cigarette
Poem.

Oakland, the Athens of the Pacific, still keeps up its reputation. It has poets—and, more than that, really producing poets, as proved this week by Dr. John T. Kergan, a prominent local physician, who, because of his talent in handling rhyming words, is just \$50 richer, and for a four-line verse at that. More than \$10 a line—an excellent reward for any poet.

Dr. Kergan has been announced as the winner of the Omar cigarette verse contest, in which the makers of the cigarette offered a \$50 prize for the best four-line verse extolling their product. Dr. Kergan, who has at various times written poems which have attracted attention by their cleverness, wooed the muse and reached to the typewriter. Here's the poem:

If it's flavor you desire, try an Omar;
If it's Turkish you require, try an Omar.
It's an even money bet that this
fragrant cigarette
Will give you "Joy of life, thanks
to Omar."

The announcement of the prize awarded the Oakland physician has attracted widespread attention, hundreds of contestants having sent verses to the cigarette company in the contest.

Dr. Kergan has been in practice in Oakland for a considerable time, and has taken a prominent part in medical organizations and other public work. His address is 1225 Washington street. Several clever verses from his pen have been read before physicians' gatherings from time to time, but, he declares, this is really his poetry's first professional appearance.

According to the terms of the contest, the company called for four-line verses dealing with the qualities of the cigarette it manufactures. Verses were submitted by hundreds of poets, writers, amateurs, and professionals, and several of the verses were so good that it was with extreme difficulty that the judges finally decided.

PSEUDO NURSE STEALS ENDEAVORER'S PURSE

Representing herself to be a nurse, a young woman yesterday victimized Mrs. Louise Bubont, Santa Barbara delegate to the Christian Endeavor convention. Mrs. Bubont was taken all and returned to the room with a friend, Mrs. Jack Tyler. The young woman approached, greeted Mrs. Tyler and asked to see Mrs. Bubont. Mrs. Tyler, who was alone, and while she was gone, is alleged to have stolen Mrs. Bubont's purse, containing \$3.

R. Buckmaster of the Hotel Venice, 1716 San Pablo avenue, reported to the police that a sneak thief entered his room and stole a purse, a marriage certificate and other papers and a small amount in cash.

A splinter didn't remove a gold chain from its case while being shown other jewelry at the Jenkins Jewelry store, 468 Twelfth street, according to report made to the police today.

Miss G. Perkins, 429 Euclid avenue, reported the theft of a large gun containing wearing apparel, valued at \$30.

C. Gilbert, 604 Thirty-fourth street, reported the theft of a wagon valued at \$10.

WORKMAN HITS MAN WITH PIPE; ESCAPES

T. F. Le Claire, a subforeman for the Ransome-Crummey Company, was struck over the head with a piece of gas pipe by one of the employees of the company while he was overseeing some work at Fruitvale avenue and East Fourteenth street. A wound four inches in length was cut in his scalp.

Le Claire's antagonist ran away and is being sought by the police, who declare that the man is Dominick Durnari and that he lives at Fifty-sixth and Adeline streets.

THIN PEOPLE PUT ON FLESH EASILY IN SUMMER

Thin men and women who would like to increase their weight with 10 to 20 pounds of healthy flesh in a few weeks find no better time to secure such result than in the hot summer months. Surprising gains in weight are often made by thin people in a few weeks out in the sun. Thin folks stay thin because their assimilative organs do not absorb sufficient of the flesh-making elements of the food they eat. Here is a way out of this. Try this summer. First weigh yourself and measure yourself. Then take Sargol—one tablet with every meal for two weeks. Then weigh and measure again. It isn't a question of how you look or feel or what your friends say and think. The scales and the tape measure will tell their own story and most any thin man or woman can easily add from five to eight pounds in the first fourteen days by following this simple direction. And best of all, Sargol stays put in the stomach and does not of itself make fat, but mixing with your food, it turns the fats, sugars and starches of what you have eaten, into rich, creamy, nourishing nutriment for the tissues and blood—prepares it in an easily assimilated form which the blood can readily accept. All this nourishment now passes from your body as waste. But Sargol stops the waste and does it quickly and makes the fat-producing contents of the very same meals you are eating now develop into pounds of healthy flesh between your skin and bones. Sargol is safe, pleasant, efficient and inexpensive.

Opesod Bros. Drug Stores and other leading druggists in Oakland and vicinity sell it in large boxes—forty tablets to a box—on a guarantee of weight increase or money back.

CHAS. HEYER CANDIDATE HE RUNS FOR SUPERVISOR

CHARLES W. HEYER, MAYOR OF HAYWARD, WHO IS CANDIDATE FOR OFFICE OF SUPERVISOR.

Charles W. Heyer, mayor of the city of Hayward, has announced himself a candidate for the office of supervisor of the Second supervisorial district, which comprises all that section of the city of Oakland east of Thirteenth avenue and Eden township. His announcement follows the earnest solicitation of his friends from all sections of the district and particularly from the Oakland end.

The entering of Mayor Heyer into the supervisorial campaign gives his friends, who have been waiting patiently for him to say the word, an opportunity to go forth among their friends in his behalf. Mr. Heyer is well known in the district. He has resided in this section of Alameda county since boyhood and has come into touch with many people. Although he had never held any state or county office he has been in public life for the past twenty-two years in his home town, Hayward, serving the people as their representative on the board of trustees for that length of time and for twenty years as president of the board.

His labors for the upbuilding of Hayward are too well known to need comment. A visit to that thriving city will convince one what he has done in the way of improvements. Hayward today is one of the most

modern cities for its size in the state. Its miles of paved streets are the result of Mayor Heyer's endeavors. Its perfect sewer and fire alarm systems reflect much to his credit. He has labored earnestly and faithfully for the upbuilding of Hayward, and he says he will do the same for the county of Alameda if the people will give him that opportunity. Mr. Heyer's campaign manager has this to say of the candidate:

"Charles W. Heyer is looked upon by his friends as an honest, courteous, straightforward and capable man. He has done more to help and assist the poor and needy than any individual in the district, and has never been known to turn down a friend or one in need. Through his kindness of heart he has drawn thousands of friends to him, who will labor earnestly in his behalf.

"The taxpayers of the district could find no one who is more familiar with their needs, nor one more capable to care for their interests than Heyer. His years of experience in road work, for instance, places him in a position to know the kinds of roads best suited to the locality. He would be the representative of the people, and not of any class or faction. Heyer is as well known in the Fruitvale section as he is in Eden township, and will receive a handsome vote here."

"SEELEY DINNER" HOST SUMMONED BY DEATH

NEW YORK, July 9.—Herbert Barnum Seeley, for years pointed out on Broadway as the man who gave a dinner at Sherry's at which "Little Egypt" danced and which the police raided, is dead. News of his passing reached this city today from Maine, where he had been living for some time in retirement.

Seeley was a grandson on his mother's side of Phineas T. Barnum, the showman, and inherited a large part of the \$4,000,000 Barnum fortune. He spent most of it, it is said, trying to be "a turf king."

It was on the evening of December 19, 1896, that he gave the dinner at Sherry's in honor of the approaching marriage of his brother Clinton. The dancers were engaged and plans made for a revel that would give the most blasé guest a thrill. The police, however, furnished the thrill. But one of the women entertainers divulged the program to Captain Chapman of the old Tenderloin station. About the time "Little Egypt" began to dance on a flower-laden table the patrolmen arrived.

County Clerk Right in Action.

County Clerk Cook is entitled to commendation for attempting to purify the registration of Alameda County. There was cause for his action in making an inquiry and in declaring that if errors, deliberate or accidental, existed they should be corrected. Many voters declare they had not been enrolled according to their political beliefs, and would therefore be barred from voting their tickets at the August primary. As an official charged with the responsibility he has been conducting an investigation. His position in the matter is explained in a public statement in which Mr. Cook says:

Politics does not figure at all in the investigation. A large number of voters registered by certain registration deputies have advised me that they have been wrongfully and arbitrarily designated as affiliating with a political party in which they have no interest and to which they are opposed. This being the case it is incumbent upon me as clerk of Alameda County to go into the alleged crooked work of these certain deputies and rectify all irregularities, if any are found to exist. My investigation was initiated solely by me and has absolutely no political significance. It will be honest and thorough in the interest of public service.

That statement is as explicit as words can make it. It shows Mr. Cook's motive to be absolutely non-partisan in character. But immediately following the commencement of the inquiry a number of Progressives began raising their voices in protest. There was even talk of a grand jury session.

It comes with ill grace for these Progressives to make objection to purification of the registration lists, especially in the face of the fact that the Republicans and the Democrats were in favor of an impartial search to determine that every man and woman entitled to vote should have the right to cast their votes according to their party affiliations.

If the list needs purifying why should a howl be raised? It makes little difference how many might have been practically disfranchised as a result of the acts of registration deputies, whether it be one or a thousand, the principle is the same, and why members of a party claiming to represent all the good there is in the politics of the State should oppose the clearing up of the lists is inexplicable from the standpoint of honesty in the conduct of public affairs.

In this absolutely non-partisan work, having for its sole object the protection of each voter in his or her right, the county clerk has taken the right step, and honest men of all parties will commend him, and will deprecate vigorously the criticisms made of his course by those who have shown an unwillingness to stand for a square deal in the conduct of registration affairs.

If there is any dishonesty in the Republican registration THE TRIBUNE would like to see it exposed. This paper stands for clean politics.

Save River Appropriation.

Oakland is as deeply interested in the matter of improving Sacramento river conditions as any town in the interior, because in a short time the trade between this bay port and cities in the valley will be an important factor. Hence the news from Washington to the effect that the river and harbor bill is in danger of defeat in the Senate is of more than passing interest.

Some Senate members are making the contention that the bill is the result of log rolling. There are some indications to that effect. For instance, one item of \$743,000 for the improvement of a little creek, with an unpronounceable name, down in Florida, which has no steamer lines, and another for North Carolina on the Cape Fear river, where one little boat makes two trips a week.

But the Sacramento river project is entirely different. The money desired to be expended means the improvement of a great water highway through which the farmers of the interior can ship their products to a community of more than a million at a lower rate than is provided by rail, ordinarily. It also means increasing jobbing trade with the interior by the same process. There is no analogy in the propositions quoted. The Sacramento and San Joaquin rivers are already in use and it is proposed to enlarge their facilities. The others mentioned are experiments.

Good sense on the part of the Senate would not mean the elimination of the entire appropriation list of more than \$43,000,000 because some evils have been found, but the eradication of the bad and the retention of the good. There is no doubt that California's Senators will strive to their utmost to keep the Sacramento appropriation on the list, because the importance of this cannot be overestimated in view of the fact that during the world's fair year trade is bound to increase as the result of the augmentation of population by the addition of thousands of visitors.

Women to Work Great Mine.

Mrs. M. A. Cappell and Mrs. M. A. Ireland, both women of wide experience in mining affairs, have taken a lease on the Omega mine, a mother lode property, near Jamestown, Tuolumne county, and with ample capital, propose to bring the old bonanza into paying condition.

The property has a history and under a former management was greatly extended and developed. The two women will undertake the removal of the water from the shafts and tunnels, and that they may supervise all details, have taken up their residences at the works.

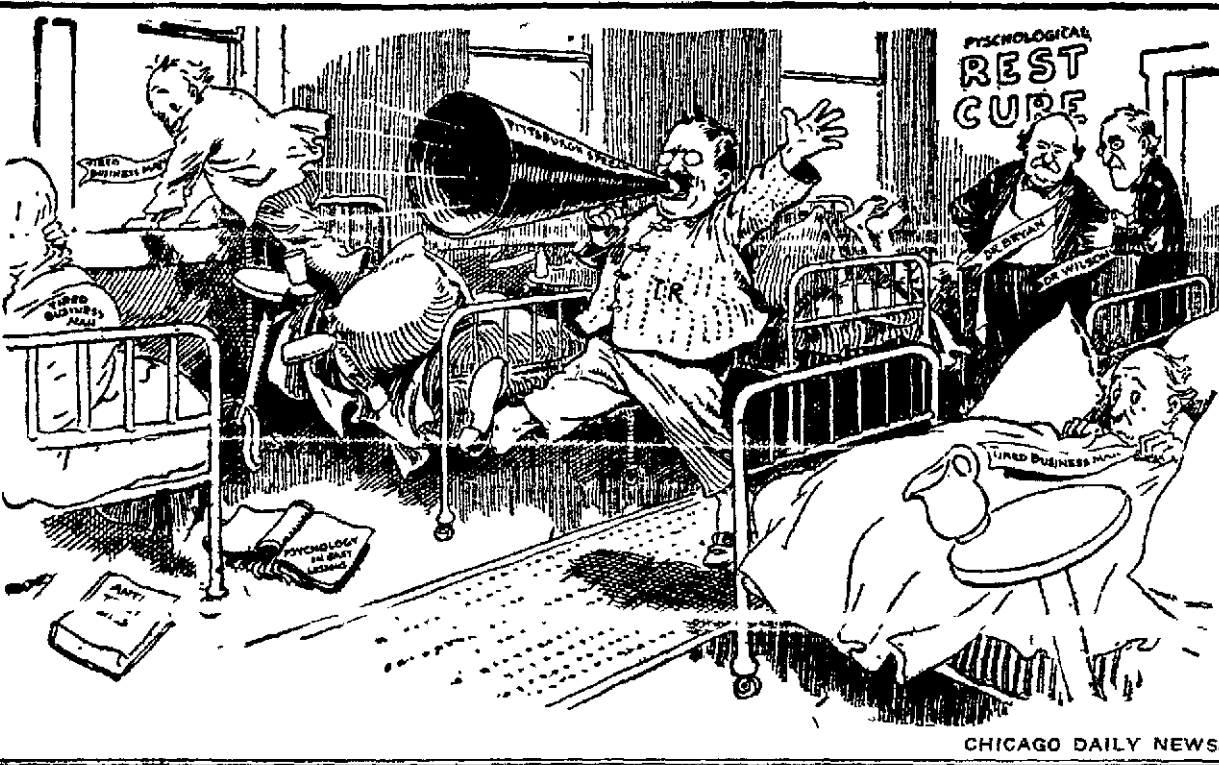

The California woman appears to be capable of undertaking anything, no matter how important.

The descendants of the signers of the Declaration of Independence, at their seventh congress held in Philadelphia July 3, adopted a resolution opposing the removal of the Liberty Bell to the Panama-Pacific exposition in 1915. What's the matter with these descendants? The Liberty Bell is as much revered on this coast for the associations connected with it as it is in Pennsylvania and will be as well taken care of as though it remained in Independence Hall.

The Watsonville Register declares if the election of Hon. Joseph Watson to the United States Senate is accomplished it will be notice to the world that California is reactionary. Well, reaction is by no means a terrible thing when it means a return to good government and the selection of sound, able, intelligent, capable, fearless men to exalted positions. The Hoboken editor of the Register appears to be entertaining a lot of groundless fears.

Just by way of a reminder: Have you registered yet? July 25 is the last day on which to get your name on the list.

The New Patient—as the Doctors See Him

CHICAGO DAILY NEWS.

Chance to Improve Fruit Market.

Apple growers of the Pajaro and Sebastopol districts of California, as well as those in the higher hills, will find something over which to ponder in the report of the United States consul in the island of Ceylon. It is related that importers of fruit in the principal towns find it impossible to procure a sufficient quantity of plums, grapes, apples and pears in good condition to supply the demand. Australia provides the greater quantity of apples, with Italy second and the United States third. Imports from this country, however, should be given credit for greater quantity, for it is stated in the report that the thrifty Japanese send in American apples shipped both by way of Liverpool and Yokohama.

The consul submits the following statement, his language being quoted:

"They (the local buyers) declare there is a good market for American apples, shipped direct, provided they can be delivered in good condition, retaining their appearance and flavor. The question of price is not important, as Ceylon fruit lovers will willingly pay from 35 cents gold to 75 cents and even \$1 per dozen for choice, well-flavored and well-appearing apples."

"Lately the shipments of American apples have largely been from California via London. In some instances the apples were called California pippins and in others Newtown pippins, whereas the fruits received were mostly bellflowers, which, owing to lack of cold storage, failed to keep well in transit."

"The two cardinal troubles which have presented themselves heretofore have been that American apple packers have attempted to introduce spongy, non-keeping varieties and they have been badly packed."

There is no reason why the Newtown pippin, which is grown in such large quantities in the Pajaro valley, should not find a ready market in Ceylon, as related by the consul. But it is only truth to say that certain fruit packers, in their anxiety to make money, have injured the trade by sending out an inferior quality of fruit, taken from the trees before ready for commercial purposes. The top and the bottom layers would be choice, while the interior of the box was filled with "culls." During the last two years, however, the shippers have taken steps to protect themselves against the damage wrought by this nefarious practice and "honor packs" are increasing. The Newtown Pippin is a splendid apple and finds a ready market abroad. The Bellflower is also a choice bit of fruit, but lacks the lasting qualities of the pippin.

If Californians engaged in growing apples will see to it that nothing is shipped that is not guaranteed, it will be but a short time ere not only Ceylon, but other ports in the Far East, are opened to trade.

Of course there is one drawback; there are no cold storage boats on the Pacific, and that which is shipped abroad from this state of necessity goes across the continent and over the Atlantic to Liverpool and other ports which are utilized as distributing centers for Europe and Asia.

As a reminder to California shippers of fruit the consul closes his report with the statement that a special list of buyers in Ceylon may be obtained at the bureau of foreign and domestic commerce.

TWENTY YEARS AGO TODAY

The militia from Santa Rosa and Petaluma has become tired of being camped up in their present uncomfortable quarters and are now making arrangements to go into camp on the shores of Lake Merritt. The boys will borrow the camp accommodations of the local companies and remain on the ground until the strike, as regards Oakland, is settled or they are ordered elsewhere.

The extra TRIBUNE yesterday not only found its way into the hands of the local community but was distributed through the interior of Alameda county. This was done by means of a fast wheelman, whose appearance on a bicycle at the different points was greeted with enthusiasm. The enterprise of the TRIBUNE being warmly commended in every quarter.

The open meeting under the auspices of the Ladies' Sympathetic League of the A. R. U. took place in Hansen's Hall. The enthusiasm was well-nigh unbounded. C. C. Carroll acted as chairman, and Messrs. G. D. Bishop, G. W. West and W. D. Powers acted as secretaries. Addresses were made by J. E. Jost, Mrs. Drake, Mrs. Loomis, Mrs. Young of Berkeley and Brothers M. A. Roberts, brother of President Tommy Roberts and Charles Hall. Brother Gilman recited J. E. O'Brien, editor of the Railway Men's Advocate, and M. Cronin danced and sang, and J. C. Weston sang.

Marital law will be practically in effect in California this afternoon, by virtue of a proclamation by President Grover Cleveland last night.

Max Peralta, Vincent Galindo and George Broulett of Temescal will spend a few weeks near Mount Hamilton.

Professor A. Mock of the Everett school at Alameda has returned with his wife from Los Angeles.

The first meeting of a new organization to be known as the "Central Christian Church of Oakland" has been held. James M. Wishart of Topeka, Kan., presided. The following officers were elected: Elders, Richard Weeks, George C. Hubbard, Leons, S. P. Hall, William H. Weeks, E. B. Lyman, J. E. Varner, S. P. Hall, treasurer; L. E. Varner, clerk.

PERSONALS.

M. I. NEGLADERY has returned from a brief business trip to Madison.

MR. AND MRS. B. EVANS have taken a cottage in the Corte Madera woods for the summer.

MR. AND MRS. LYNNE STANLEY were in Fresno for a few days during the first of the week.

MR. AND MRS. FELIX ADAMINA spent the fourth of July season with friends in Newmarket, their former home.

MISS AILEEN MAKER spent the natal holiday season with friends in Grass Valley.

TORPEDO BOAT TO BE LAUNCHED

SAN FRANCISCO, July 9.—The United States submarine torpedo-boat K-3 is to be launched from the docks of the Union Iron Works on Saturday afternoon, July 11, at 3:30 o'clock. Mrs. John William Lewis is to sponsor the launching, at which there will be appropriate ceremonies.

PACIFIC WATER IS HIGHER

The tides are among the most remarkable phenomena in the world of Nature, and they give rise to many peculiar notions concerning the level of the oceans. The tide at Panama, for instance, rises much higher than the tide at Colon, and this leads many people to think that the Pacific has a higher level than the Atlantic. As a matter of fact, however, while the tidal fluctuations on the Atlantic side have a range of about twenty feet, the level of the oceans is the same. The difference is caused by the narrowing shore line of Panama bay, which takes a broad expanse of water as it enters the bay and narrows it down as it sweeps into the V-shaped entrance. What it loses in breadth it must make up in depth, and hence the higher tides on the Pacific side of the Isthmus of Panama.

The same phenomenon is witnessed in the bay of Fundy, where at the head of the bay the rise is fifty-five feet above sea level. At spring tides the water in the bay of Fundy is nineteen feet higher than in the bay of Verte, only fifty miles distant.

BITS ABOUT THINGS

The Oklahoma State Free Employment Bureau in six years has found work for 52,000 persons.

Railway men in Germany may only belong to such societies as are approved by the management.

King of Ludwig of Bavaria intends to travel to New York in June next in the new Hamburg-American liner Vaterland during the liner's maiden trip to America. The king will also return to Europe in the Vaterland, which was personally named by him. The Vaterland is a sister ship of the Imperator.

New Jersey factories employ more than 323,000 workers.

MRS. JOHN JEROME ALEXANDER, WHO IS SPENDING THE SUMMER IN SANTA BARBARA.

It is an unusually interesting summer in Monterey with painting the popular pursuit and several important artists in the summer colony. There are always Frank McComas, Armin Hanson and the rest of the Monterey group with, this year, distinguished others. William Chase, for one, is to visit Monterey.

Mademoiselle Betti de Jong, portrait painter of Paris, member of the jury of the Salon, and so on, is there sketching types, and Isabelle Percy, her niece, is doing landscape studies. And there is charming Miss Florence Wilcox of Berkeley, who is painting madly and with an excellent eye that has won for her serious consideration.

Miss Williams is a society belle when she is not painting, but she would rather paint than dance, and so would her friend Mary Gayley. In the Harry Alston Williams home in Berkeley there is a studio that is distinctly a workshop, though on rare occasions there are studio teas. Miss Williams and Miss Gayley spent most of their time there last winter when the rest of their set was tea-dancing or playing bridge. She sails for Paris this month with her interest centered in the galleries and the studios of the Quarter, and not in shops of the Rue de la Paix, and Miss Williams is foregoing most of the gayeties at Monterey to work under Hanson, who predicts a future for her.

AT SANTA BARBARA.

Mr. and Mrs. John Jerome Alexander who occupied the attractive Hughes residence for several months, have gone to Santa Barbara. They will remain several months and it is hoped the charming young matron, who is a great favorite in society, may return to Monterey to return to the time of their marriage until last spring. Mrs. Alexander was Miss Albertine Dietrich. She had planned to entertain this month for her cousin, Miss Ernestine McNear, and the latter's fiancé, George Nickel, but her ill health necessitated giving up social activities for a time.

Mrs. Wilfred Hughes recently returned from a visit to Tahoe and is again established in her home in Santa Clara avenue.

ENGAGED GIRLS FETED.

Miss Marjorie Emmons, the fiancée of Albert Coogan, and Miss Florence Orr, whose marriage to Eugene Jorgensen is set for the 22nd, will be guests of honor at a bridge party to be given Saturday afternoon by Miss Florence Wendling at her home in San Francisco. There will be twenty guests including several from Oakland who will cross the bay for the occasion.

ELABORATE WEDDING.

The wedding of Mrs. Clara Gardner and Carl Burg at the bride's home in San Francisco next Tuesday evening, will be guests at a large affair with a number of guests from Oakland and Berkeley present at the ceremony and supper to follow.

The bride who is a sister of Mrs. Walter Lawrence of Oakland, will be attended by her daughter, Miss Florence Gardner, as maid of honor. Mrs. Edward Burg will be matron of honor and Edward Burg, Jr., will serve as ring bearer.

The bride who is a charming and attractive young matron will wear a handsome costume of gold embroidered white silk with gold lace. Gold slippers and a white parasol shawl worn in the hair will complete the costume. Miss Florence Gardner will be crowned in white silk embroidered with gold pearls and with a tunic of silk lace.

After the honeymoon Mrs. Burg, who is in business in San Francisco, and her bride will establish their home at 1501 Lake street, San Francisco.

MISS FISCHER ENGAGED.

The engagement of Miss Nina Fischer, daughter of Dr. and Mrs. Kaspar Fischer, to Dr. and Mrs. Kaspar Fischer, was announced at the luncheon given Tuesday afternoon by Miss Fischer at her home in San Rafael. The bride-elect is a grand-daughter of F. W. Dohrmann.

Ignorant Prejudice

(By Lillian Russell)

Copyright, By LILLIAN RUSSELL.

EVERY woman should have a decided opinion upon every subject that is worth discussing. Too many women confess to the weakness of not having an idea; in fact, they confess to their own shortcomings, which is a great mistake. If one is prejudiced, one should have a reason for prejudice.

reason. Their prejudice, then, must be ignorance of the subject in questions, and cowardice in admitting their ignorance.

The time is arriving rapidly when women must express themselves upon vital questions. They must listen and read, they must bar prejudice or ignorance and acquire a positive knowledge of things which are or are not for their welfare.

Intuition is often wonderfully correct, but that her reasoning is bad. If she knows her subject as well as a man, and far more so on the most vital subjects. Men can reason and scheme, women can reason and sway by the force of their honesty. Intuition is not enough for the questions of today; knowledge and reason must prevail. The question of woman's position in the world must be understood, and no one should have it at heart so thoroughly as woman herself.

The woman who is gifted more than her sisters should exercise her gifts for the betterment of woman's position. All influences should be put to bear for the protection of woman and children. Wake up from ignorance. All women can have knowledge if they so desire. If you are ignorant be honest and do not call it prejudice. No intuition is worthy of expression unless it can be backed up by reason.

Remember: A woman's intuition is but a whisper from her intellect.

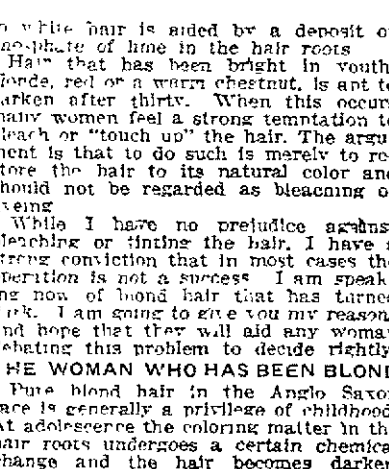

LILLIAN RUSSELL.

BROWNIE: Your letter was received and answered as quickly as possible. You must know there are many letters received and it takes time to answer each one and give it personal attention. I am sure by this time you have received the answer to your query. I am sorry, but I cannot give names of proprietary articles of any kind. I do not believe in taking anything internally to reduce flesh and would advise you to be careful before attempting this method of reducing.

NAMELESS: I cannot possibly answer all your questions in the columns of this department. They are too long and would take up too much space. However, if you wish to send me a stamped, addressed envelope I shall give you all the information desired.

O. R. A.: In response to your request, I shall again print the formula for reducing flesh. Dissolve half a pound of epsom salts in a pint of water. Shave fine soap and a half bar of white soap—any pure white soap will do—and dissolve that in a pint of boiling water. When partially cool beat in the epsom salts solution. Massage this preparation heavily into the fleshy parts at night and allow it to dry on the skin. In the morning wash off. Continue treatment until flesh disappears. The average loss of weight is two pounds a week. Twice a week before taking treatments. It would be a good idea to immerse the body for a few minutes in a tub of hot water, into which has been thrown half a box of ordinary baking soda. After drying yourself cease perspiring, which may not be for half an hour, dry the body and rub in the epsom salts solution. This treatment is perfectly harmless.

Madame Isbell's Beauty Lesson

HAIR PROBLEMS OF MIDDLE AGE.

While hair is aided by a deposit of perspiration of lime in the hair roots, which has been bright in youth, it becomes dull and dry in middle age. When this occurs many women feel a strong temptation to bleach or dye their hair. The argument is that to do such is merely to restore the hair to its natural color and should not be regarded as bleaching or dyeing.

While I have no prejudice against bleaching or dyeing the hair, I have a strong objection to the operation in most cases. The operation is not a secret, and I am sure the woman who has been blonde for years will not be so easily deceived by the hair restorer.

AS THE HAIR TURNS GRAY. The use of a dyeing agent as a restorative or peroxide mixed with ammonia which is the usual application, will tend to premature graying of the hair. When the hair turns gray, it is useless, for it will not cover up gray hair. A dye must now be resorted to, one that will not harm the hair and generally does not. It is a pity that so many women tamper with their hair finish with a most unnatural and artificial appearance.

This is added to by the fact that as the hair roots have turned darker there is corresponding change in the scalp, which is the cause of the hair turning gray. The hair turns gray because the hair roots have turned darker. We find that red hair delivers its color from the hair roots, and the hair turns gray because the hair roots have turned darker. As time goes on the change

which a number of the Bohemian Club stars took part. Among other guests were Mrs. Lewis Bancroft, Mrs. Leonard, Mrs. Landfield, Mr. and Mrs. Francis Davis and Miss Anna Peters.

The Dwellings left yesterday for Yonkers to spend several weeks at Camp Awaheen.

VISITING PERKINS HOME.

Miss Perkins is the guest of Mr. and Mrs. Perkins at their summer home on the Russian River where a number of guests will be entertained during the summer. Miss Perkins will return to her home, "Fawn Knoll," in Oakland, next week.

TOUR OF SOUTH.

Mr. and Mrs. Ray Herriett left last Sunday for Los Angeles and will enjoy a several weeks motor tour of the South before returning to their home in Oakland.

DUCHESS HEARD IN PLEA FOR SUFFRAGE

Titled Woman Urges Cause at Newport

NEWPORT, R. I., July 8.—The Duchess of Marlborough, who was Consuelo Vanderbilt, the first American heiress who ever gave her girlhood happiness away for a British coronet, made the first speech in the United States here yesterday.

The Duchess, in simple, unaffected words, told the Political Equality Association that she has been trying to do for women in the last eleven years.

She is not a militant. She works for the poor and unfortunate of her own sex. She has opened a home for children whose fathers are in prison and whose mothers have to work for a livelihood.

She has founded another home for the wives and mothers of convicts who are unable to support themselves.

She has opened offices where discharged convicts may find help in obtaining employment.

"These homes," said the Duchess, "prevent the brunt of the punishment falling upon innocent women and children."

Mrs. Oliver H. P. Belmont presided at the meeting, which was held on the terrace of Marlborough House. Four hundred women from all parts of the United States were present.

Other speakers were Miss Rosa Scheideggerman, president of the Women's Trade Union League; Miss Mary W. Bartlam, assistant judge of the Chicago Juvenile Court; Mrs. Maudie Ballington Booth of the Volunteers of America; Miss Katherine D. Davis, commissioner of correction of New York; Miss Helen King Robinson of Colorado, and Miss M. Gordon, president of the Southern States Women Suffrage Conference.

In opening the conference Mrs. Belmont said:

"Once upon a time, when referring to a woman, it was not only the custom but the usual method of endeavoring her with respectability to speak of her as 'belonging' to some man, and later on, when the 'sturdy oak' had fallen by the wayside, his relic."

"The women who have traveled from the four corners of the United States to confer with us today can claim relationship to men who were the nation's heroes and whose achievements have made the nation their debtor. And yet, in not one instance is it necessary to introduce our speakers on this occasion as 'belonging' to any one."

Bishop Darlington of Pittsburgh occupied a front seat and applauded enthusiastically. At one time when Mrs. Florence Kelly, secretary of the National Consumers' League, was speaking and describing the conditions under which some women and children labor, the good bishop lost control of himself altogether and shouted "Shame! Shame!" much to the amusement of the gathering.

UNDRAPEE ACTRESS SHOCK TO PARIS

PARIS, July 8.—Two of the principal vaudeville houses in Paris will be submitted to an inquiry by the magistrate who is in charge of the public prosecutor that certain undraped scenes showing at these establishments constitute an offense against public decency, and the managers, together with several actresses, will be interrogated on this subject.

MRS. CHAMP CLARK AUTHOR OF PLAY

WASHINGTON, July 8.—Mrs. Champ Clark, wife of Speaker Champ Clark, has just completed an interesting play entitled "The Isle of Wishes." The play, which partakes somewhat of the nature of a pageant, with quaint songs and old-fashioned dances as one of its leading features, will be produced at Bowling Green, Mo., in pageant form shortly.

RICH WIDOW OF AVIATOR IS WEDDED

LONDON, July 8.—May Kinder Astley, formerly an American actress, widow of Henry Jacobs Delaval Astley, an aviator, was married yesterday to Shirley Falcon, son of an art dealer.

Miss Kinder Astley went to London from New York in 1907 and made her debut as one of the twins in "Peter Pan," appearing later in musical comedy. She was married to Astley, eldest son of Lady Florence Leathcote-Drummond-Willoughby, who was a daughter of the Marquis of Connaught.

Two years later Astley was killed in an aerobial accident in Belfast. He left his widow an estate, valued at \$325,000, to his widow.

HEAD OF SOCIETY DIES IN EAST

NEW YORK, July 8.—Mrs. Katherine Beckman-Schuyler, wife of Montgomery Schuyler, who is well known among magazine writers and as an artist, died at her home in New Rochelle. She was president of the Dames of the Revolution. She was born on June 25, 1841.

WOMAN BURNED IN GASOLINE EXPLOSION

FRESNO, July 8.—Miss Alice Elam, 415 Merced street, was fatally burned yesterday morning by an explosion of a bucket of gasoline, in which she was washing clothes in the basement of her home, and died last night.

Friction from rubbing the clothes is believed to have ignited the gasoline. An explosion followed, enveloping the helpless victim in flames. Before neighbors in answer to her screams, could extinguish the fire, all the clothes had been burned from the woman's body, only her shoes remaining.

Mrs. Elam, in great agony, was taken to an ambulance to a sanatorium.

GIRL SAVES LIFE OF ENGINEER

PORTERVILLE, July 8.—Marie Williams, an 18-year-old fruit cutter at the Porterville cannery, yesterday saved J. W. Phillips, the cannery engineer, from death after Phillips had been enveloped in flames from an oil burning furnace. Phillips' clothing burst into flames when the girl tore off her skirt, thus saving his life.

'OUCH!' SAY MODISTES CARTOON SHAFTS HURT

PARIS, July 8.—Sacre Bleu! It may be to smother, in English—but it is not to laugh in Gay Paris! No! It is to say malediction on the Cocons Anglaises.

Fashionable Paris is angry—and Poret and the rest of the famous gown designers are fairly squirming in wrath. It's all because the dilligent London weeklies have made so much fun of French fashions that even the French are beginning to see the joke—and that's hurting business.

"Sem," a French artist, started these cartoons, which the dressmakers are so angry at. He was induced to stop—but these English won't stop.

When Poret designs a new striped effect the English say that it's made to cause lovely woman to look thinner than she is. They then suggest that checks have the opposite effect.

"Figures made by stripes and checks," they continue—and show cartoons. A meeting of French dressmakers has

been called to devise some way of combating the storm of ridicule from across the channel that has so injured business. Several well known designers will take up the problem in an effort to make the London weeklies "lie down."

NOBLEWOMAN MOURNS FOR DROWNED BARONET

LONDON, July 8.—Dressed in deep mourning and heavily veiled, Lady Diana Manners was a pathetic figure at yesterday's inquest into the death of Sir Beers-Bolton, drowned as the result of a foolhardy prank on a midnight yachting trip on the Thames.

"Accidental death" was the verdict of the coroner's jury.

Lady Manners attended the inquest, believing that she might be required to testify, but this was not found necessary. The only woman to give evidence was Miss Iris Tree, daughter of Sir Beers-Bolton.

A hint of romance between Lady Manners and the dead Baronet was found in two floral tributes among the wreaths covering the coffin in the mortuary. One wreath of lilies bore the inscription, "With Diana's Love," while a sheaf of earlet gladioli from Lady Diana had a card simply inscribed, "With All the Love I Bear Denis Anson."

SCHOOL TEACHER DROWNED IN RIVER

HANFORD, July 8.—Miss Inez Jayne, a Wahitoke school teacher, was drowned in King's river, below Hardwick, Tuesday afternoon. A party of picnickers went in swimming, and Miss Jayne, the only girl, went beyond her depth and was whirled down stream, sinking before aid could reach her.

A twenty-four hour search by divers was said she is out of town.

Established 1877. JOHN E. MAGNIN, President. Grant Ave. at Geary St., San Francisco. Phone Sutter 3600.

GUADALAJARA, SECOND LARGEST CITY IN MEXICO, IS CAPTURED

REBELS TAKE IMPORTANT CENTER

Guaymas About to Be Evacuated, Report to Constitutionalists.

NOGALES, Sonora, July 9.—Guadalajara, second largest city of Mexico, has fallen before the attack of General Alvaro Obregon, according to information received by constitutionalists officials here today. Guaymas, seaport of the state of Sonora, which has held out for more than a year, is about to be evacuated, according to the same source of information.

TO ANNOUNCE POLICY.

WASHINGTON, July 9.—That the Washington Government would give within a few days some manifestation of the policy it intends to pursue to meet any new development in the Mexican situation was the belief expressed today in many quarters. President Wilson and his advisers still awaited official information of the Constitutionalists' attitude toward a proposed peace conference with Huerta's envoys. They declined to comment on reports, partially confirmed in Washington, to the effect that the revolutionary leaders would not agree to a parity.

Probably the definite expression of its plans for the future will not be made by the American Government until the proposition of the conference is settled and specific information on the extent of the Villa-Carranza agreement is received. The status of mediation proceedings and disposition of the American troops at Vera Cruz are two of the pressing features hanging on the ultimate attitude of the Constitutionalists towards the proposed peace meeting.

Military leaders of the Constitutionalists, among whom Carranza is taking a role, strongly were opposed to the idea of any parity, it was said. They want to follow out the "plan of Guadalupe," their platform of principles. That outlines of establishment of a military government after the capture of Mexico City and pacification of the country under martial law. Fears were expressed today during the development of the program, the estrangement between Carranza and Villa might again crop out. While reports from Torreón stated the agreement between the two cities had been settled, there remained an uncertainty of comment indicating that the truce was only temporary.

EXPLAIN TROOP MOVEMENT.

The movement today of Villa's troops northward from their Zacatecas campaign was explained by statements from some quarters that the United States and a few European nations had urged that the northern general be not allowed to reach Mexico City first. Administration officials declined to comment on such reports.

That the Constitutional military campaign was progressing without the immediate co-operation of Villa was indicated in official revolutionary reports that General Obregon's northwestern forces had beaten back an army of Carranza almost at the gates of Guadalajara. Obregon said he believed his men would capture the city without much more serious fighting. Probably his forces would be unable, it was said, to attack Huerta's capital without help.

Anxiety over the situation at Vera Cruz, where mutineers in Huerta's army threatened to attack the American outposts was relieved by reports that the malcontents numbered less than fifty and that some of them had been executed and the remainder scattered.

Rafael Zubaran, confidential agent of General Carranza, said today that while he had received no word as to the attitude of the Constitutional chief towards the proposed informal peace conference with General Huerta's representatives, he had by no means lost hope of a favorable answer.

FRUIT TREES FOR HUERTA.

ROCHESTER, N. Y., July 9.—Victoriano Huerta is the owner of a consignment of several hundred fruit trees awaiting shipment from here to Mexico. The trees were purchased at a suburban nursery, some time ago, and have since been hauled from one depot to another seeking a railroad which would guarantee delivery. The Lackawanna accepted the shipment today, but at owner's risk.

CONFERENCE ON FLAT CAR.

VERA CRUZ, July 9.—Brigadier General Fariñas made a trip to the gap in the railroad where he conferred briefly with Lieutenant Colonel Kanza, commander of the Mexican federal troops.

On his return the American general said nothing important had been discussed, but that he had thanked Colonel Fariñas for several recent courtesies extended to Americans, such as the return of two Marines who had wandered out of the lines.

General Fariñas also explained the recent trip of a small mounted party from the American garrison at El Teco to Medellin, a village within the federal lines. Colonel Fariñas yesterday called the attention of the American authorities to this incident, saying he regretted its occurrence as such movements were liable to bring about an unnecessary clash and loss of life.

When the train bearing General Fariñas reached the gap the federal commander and an aide came through the Mexican lines and the conference was held on board the covered flat car at the head of the train in which General Fariñas had made the trip.

Company with Rear Admiral Sir Christopher Craddock, the British naval commander, who was on his way to Mexico City.

SUCCUMBS AFTER LIVING CENTURY AS AN INVALID

NELLISVILLE, Pa., July 9.—An invalid for a century. This is the remarkable history of Mrs. Martha Cruse, who died today at Trent, Somerset county.

As an infant Mrs. Cruse was sickly, nor was she ever a well woman. Her health, however, was improved, grew to full stature and passed away, the spark of life remaining in her frail body and she succumbed at last to the burden of her years.

'BUSINESS IS GOOD'

Manufacturer So Informs President Wilson at Optimistic Conference.

WASHINGTON, July 9.—Optimistic views of business conditions were presented to President Wilson today by Henry Ford, the Detroit manufacturer, during an hour's conference at the White House. Ford told the President he saw no evidences of any sort of business depression, psychological or otherwise, and said in his opinion business was getting better all the time.

"There is absolutely nothing wrong with business," Ford told the President. "The only trouble is that some people seem pessimistic. If every one would only cheer up and attend to their business this calamity talk would stop immediately."

The President and Ford discussed the trust bills in a general way, as well as the business situation. TO PUSH TRUST PROGRAM. Officials close to the President said he was greatly encouraged by his talk with Ford, and that he had been further strengthened in his determination to push the trust program during the present session of Congress.

Ford refused to discuss his call, saying that talk of business depression was unworthy of denial. Today's engagement was the third in the series the President has arranged to talk over with leaders in the industrial and financial world concerning general business conditions as well as measures in Congress. Recently he conferred with J. P. Morgan and yesterday discussed with representatives of the Chicago Association of Commerce, proposed anti-trust legislation and business conditions in a general way. The President has expressed the feeling that these conferences have been mutually instructive and helpful.

MEASURE IS OUTCOME.

One direct result of the conference with the Chicago business men is the possibility that the trade commission bill which has been in the House and is now pending in the Senate, may be modified as to details. To that end the Chicagoans remained in Washington and were expected to confer today with Representative Covington of Maryland, author of the House Trade Commission bill. The President arranged for the conference.

The delegation told the President that they favored the trade commission bill, but suggested that certain modifications which they contended would make it a strengthening measure, helpful to all business. They advocated a trade commission with broad powers of investigation and authority to force the discontinuance of practice contrary to law. They objected to making all corporations return annual reports to the commission and thought all many definitions of illegal practices were unnecessary. After listening carefully to their arguments, the President wired Representative Covington at his Maryland home to come to Washington to confer with the delegation.

Representatives of the National Association of Supervisors of State Banks were expected to discuss with the President resolutions which he is said to have asked them to frame, by which State banking laws would be made to conform to the new regional bank act.

Ice Cream Poisons Four; Woman Dies

CHICO, July 9.—Four cases of ptomaine poisoning, one resulting in the death of Mrs. Mary A. Tilton of Paradise, have been reported here between July 4 and today. The ptomaine poisoning was caused by ice cream. Mrs. Tilton died 24 hours after eating ice cream here. The second case was reported Monday and two today.

DEATH OF TESTAMENT COMPLICATES WILL SUIT

The death of a will contestant after her suit was filed has caused a legal complication in the Superior Court that is now being fought out before Judge William S. Wells and has been laid over two weeks while lawyers delve in their books to find opinions, decisions and precedents on which to argue. Angela Villa Melendrez of Alameda, one of the contestants over the will of the late Marcelo Melendrez, which has been attacked by Mary Nieblas, a daughter, charged the latter with having piled the aged man with liquor before his death. The estate in question is valued at \$10,000. Her death removes considerable evidence in the contest.

arrived here today from the capital brought no confirmation of the report that General Huerta's wife had been shot.

KARLUK RELIEF PARTY WILL DEPART

Revenue Cutter Bear to Sail for Wrangell Island Within Week.

SEATTLE, Wash., July 9.—The revenue cutter Bear, with Captain Robert A. Bartlett, late of the Stepanoff exploring ship Karluk, will sail from Nome probably within a week, for Wrangell island, off the coast of Alaska, to take off eighteen white men and four Eskimos, one of them a woman, who have been on the island since March 10, when they arrived from the scene of the wreck of the Karluk.

The Karluk was crushed by ice January 10, north of Herald island. The men took all the provisions and placed them on the ice, also everything else of value on the boat, which sank the next day. Herald island was sighted to the south and two parties set out for the island, but were unable to land.

A description of their experiences, sent by Bartlett to Ottawa, was taken to mean that the parties did not return to the mainland. This, however, Bartlett said yesterday was an error. The whole party made their way to Wrangell island. Then Bartlett and an Eskimo and a team of dogs set out over the ice for North Cape, Siberia, and crossed the Siberian peninsula to Bering sea, finally arriving at Nome. About the same time a party of men went back over the ice to get supplies left by the party at the scene of the wreck. It is to be supposed that they returned safely, as the dog sledging journey was neither long nor dangerous.

The white men now on Wrangell island are: Henry Beuchat, anthropologist; Blarney Mamen, assistant topographer; Dr. Alister Forbes Mackay, surgeon; George S. Malloch, geologist; William Laird McKimley, magazine editor; James Murray, oceanographer; Alexander Anderson, first mate; John Munroe, first engineer; Charles Barter, second mate; Robert Williamson, second engineer; F. W. Maurer, fireman; Geo. Bredy, fireman; John Brody, Thomas Morris, E. King, A. Williams, seamen; Robert Templeton, steward; Ernest Chase, cabin boy.

So far as known none of the men suffered from serious mishap. They have abundance of food and clothing and have excellent dog teams. With the return of the relief party in the spring they were able to change from pemmican to roast duck.

Banker Near Death; Has \$100,000 Mausoleum

MAYSVILLE, Mon., July 9.—Captain James Ewart, 75 years old, millionaire banker, left last night in a private car, accompanied by doctors and nurses, for Mount Gilead, Ohio, his boyhood home. He is said to be near death. Captain Ewart has had a mausoleum erected to a cemetery at Mount Gilead at a cost of \$100,000. Scores of his friends bade him farewell at the railway station.

In the days of the James boys, Ewart made of his banking house a veritable fortress, erecting barricades behind which men with rifles constantly were on guard.

OAKLAND TO CELEBRATE JULY FOURTH HEREAFTER

Twice in twenty years Oakland has been without a Fourth of July celebration but the Oakland Merchants' Exchange is determined that in future not a year will pass without this city celebrating Independence Day. A committee from the Exchange will endeavor to secure an appropriation in the new budget, as provided in the charter for public entertainment purposes, which will be sufficiently large to allow of such a celebration.

A request was received from the Southern Pacific Railway Company petitioning the Exchange to request Congress to defer action on the bill introduced by Senator Moon until it receives the report of Senator Bonner's joint committee on proposed changes in rate for carrying the United States mail. The Moon bill would provide for paying railroads on a space basis for handling mail, and, it is said, would reduce the payment \$2,000,000 below the present law. The railroad company says it would reduce it \$10,000,000. The subject was referred to the legislative committee.

The harbor committee was authorized to unite with a similar committee from the Commercial Club, the Chamber of Commerce, the Progress and Property Committee and the manufacturers' committee in a conference for the betterment of harbor conditions. The committee will work with the view of having some of the harbor work completed for use within as short a time as possible.

SEATTLE POLICE WORK ON MURDER MYSTERY

SEATTLE, Wash., July 9.—The body of a well dressed man about 30 years old, supposed from papers in his pockets, to be A. E. Oard, was found today in the Columbia and Puget Sound Railroad yards south of Seattle. Oard had been shot through the head. The police are working on the theory that Oard was murdered and have made several arrests. Papers indicated that he had been a guest of the Tremont Hotel, Red Shift.

INJURED FROM FALL. Humbert Tassa, an airman employed by the Southern Pacific Company, was injured this morning when, on his way to work, he fell from the bicycle he was riding at the corner of Thirty-second and San Pablo avenues. He sustained bruises and abrasions which were treated at the Emergency Hospital by Dr. E. E. Dowdle.

WOULD-BE SUICIDE CALLS WIFE A "VAMPIRE" IN FAREWELL NOTE.

San Francisco, July 8, 1914. —To the Children of John W. Stobener, 26 Valley Street.—Dear Children: My existence having become a burden to myself, and owing to ill-health, a burden to myself, I intend to seek relief in the unknown. It is my wish to have Court Robin Hood, Foresters of America, or Phoenix Lodge, K. of P., or both, to take charge of my remains, have them cremated and deliver the ashes to Mr. Edward Weisenberger, 561 Waller street, he to dispose of them as per instructions. In my will and for that service Mr. Weisenberger is to be given \$50 from my estate.

"May the ruler of the universe guide your footsteps in smoother lines than such as I have had to travel. "May the curse of God hover over the vampire woman I have to call by the sacred name of wife, who by pretending love and affection, robbed me of everything worth living for—robbed me of your mother, my honor and my cash. Farewell. From your father. "JOHN W. STOBENER."

John W. Stobener's letter to his children.

SAN FRANCISCO, July 9.—Referring to his second wife as a vampire, who had made his life a burden to him, John W. Stobener, 69 years old, who lived at 26 Valley street, rented a room at the Golden West Hotel, 112 Powell street, early this morning, and after penning a note to his children shot himself twice in the temple.

Both bullets emerged on the left side of his head, but death did not result. The would-be suicide is now dying at the Central Emergency Hospital.

The extreme seriousness of the bullet wound which did not result as immediately fatal is a cause of wonderment to the attending physicians. The letter left by Stobener was addressed "To the children of John W. Stobener," and was in part as follows: "Dear children: My life having become burdensome, and through ill health I have become useless to myself and society. May God grant that your footsteps fall in easier paths than mine have. May the curse of God fall upon that vampire who robbed me of my mother."

The letter is explained by relatives in the fact that Stobener was married twice. He was married fairly well. He left instructions for the disposition of his body.

New Haven R. R. Shares Fall to Low Record

NEW YORK, July 9.—New Haven railroad shares fell to a new low record today, selling at 62 1/2 soon after the opening of the stock market. The previous low price was 63 1/2, made a few days ago. The company's differences with the federal government in connection with the Boston & Maine road are believed to be responsible for renewed liquidation in New Haven stocks.

DEEDS VALUABLE LAND TO CHICAGO NEWSBOYS

CHICAGO, July 9.—Six acres of valuable land on the outskirts of this city were donated to newsboys and bootblacks today by Francis A. Hardy, as a site for a home for the boys. Hardy is chairman of a board raising an endowment fund for the home.

DAUGHTER BRIGHTENS HOME.

Congratulations are being showered upon Mr. and Mrs. James Robert Kenna, over the arrival of a baby daughter at the Alameda Sanatorium. Mrs. Kenna was Miss Charlotte Hall, daughter of the late Judge S. P. Hall and Mrs. Hall. The Kenna home is at 1312 Magnolia street, Oakland.

All must and will be sold. J. A. MUNRO & CO., Auctioneers.

WOMEN BRAVE DANGERS MOTOR THROUGH WAR-TORN MEXICO TURNED BACK BY TROOPS

MISS EILEEN THORNTON AND MISS HAZEL THORNTON, WHO RAN RISKS IN WAR-RIDDEN MEXICO.

After braving the dangers of war-torn Mexico, motoring through the sparsely settled country districts to inspect their cotton holdings, crossing the Colorado river just before the flood waters washed out the bridge and encountering many adventures during their tour, S. Thornton, local capitalist, with his wife and two daughters, Miss Eileen and Miss Hazel Thornton, have returned to their home, 327 Highland avenue, none the worse for their daring trip. So little trouble did they encounter that they declare Americans traveling in Mexico are practically safe, although they themselves were, at Mexico, menaced by a file of soldiers armed with rifles.

That life in Mexico, despite the troubled conditions, is little more unpleasant than in any other country, that save for surly looks from ignorant natives, the American finds little trouble through the country districts and that the only trouble encountered is from officious soldiers in isolated instances, is Thornton's declaration.

He declares that officials are courteous through the country, he and his family traversed, that his 200 employees in the Mexican cotton fields have never been molested and that, despite conditions, the largest crop harvested in years has been taken from the ranch. A camp of 100 Mexicans is near his holdings.

AT MOUTH OF GUNS.

"The only unpleasant incident in our trip," declared Thornton, "occurred at the fort at Mexicali, as we were driving by. An officer and four troopers came out, with leveled guns and ordered us to turn back and leave the fort. We did so."

"The Mexican cotton crop is well advanced and is looking well, and over the old cotton raisers are surprised. More than 50,000 acres are planted on the Mexican side, this land being mostly owned by Californians."

The trip, which lasted three weeks, took the Thorntons through the heart of the Imperial valley, where they spent some time. The trip was made entirely by automobile.

Town Is Captured by Albanian Insurgents

ATHENS, Greece, July 9.—Confirmation of the capture of the important town of Korica, in Southern Albania, by Albanian insurgents, was received here today. The fighting lasted three days, after which the Albanian government troops took to flight and the Dutch officers in command proceeded to Avlona. It was at first reported that the entire garrison, including some foreign officers, had been captured by the insurgents.

T. R.'s Daughter and Son Sail for N. Y.

SOUTHAMPTON, England, July 9. Mr. and Mrs. Kermit Roosevelt, daughter of Colonel Roosevelt, were aboard the Imperator, which sailed today for New York.

MOB STORMS GEORGIA JAIL

Seek to Lynch Negro Who Confessed to Robbery of Pay Car.

BAY SPRINGS, Miss., July 9.—For the better part of this morning a mob stormed the jail here, bent on the lynching of Mose Johnson, a negro who yesterday confessed to robbing the pay car of the Gilchrist-Ford-Lumber company, near Stevens, Miss., June 27, killing one man and wounding two others.

When the mob leaders demanded that sheriff Jones deliver the negro, the officer refused, and immediately reinforced his posse of thirteen deputies by an appeal to citizens of Bay Springs to furnish additional men to defend the jail. Awed by the arrival of reinforcements, the mob hesitated to attack.

The negro was removed to an interior room and the jail barricaded. At 10 o'clock men from Louin, Miss., were swelling the ranks of the mob.

Sparks on Roof of Hotel Causes Panic

SAN FRANCISCO, July 9.—Several hundred guests in Herbert's Bachelor Hotel on Powell street, near O'Farrell, and in surrounding apartments and hotels were thrown into a panic at an early hour this morning. Two alarms of fire brought out a number of companies to the scene. A shower of sparks was descending on the roof from a fire in the rear of Herbert's place and in many guests, becoming frightened, fled to the hallway and fire escape, believing that the hotel was in flames.

The real cause was quickly located and quiet restored. There was practically no damage.

Wilson Thanked by Pan-Hellenic Union

WASHINGTON, July 9.—President Wilson today received a telegram from the Pan-Hellenic Union in America, thanking him for the sale of the Lusitania to Greece.

"We consider the transaction a great act of humanity in preventing the outbreak of a new war in the near east," telegraphed the president of the union.

JAPANESE AMBASSADOR INTRODUCED TO WILSON

WASHINGTON, July 9.—The Japanese ambassador, Viscount Chinda, introduced to President Wilson today by Major General Glueck Tanaka, a member of the Japanese army general staff, who has been in Europe investigating military establishments.

The general is accompanied by Dr. S. Nyagawa, a distinguished authority on international law.

What Do You Think of Selling Suits Below Cost

Eddie Moy Impresses the Local Fans With Speed, Cleverness and Strength

EDDIE MOY HAS SPEED AND CAN DELIVER A GOOD LEFT

Old-timers Predict Burns Will Have a Hard Time With Newcomer.

(BY THE TIMEKEEPER.)

Frankie Burns' last afternoon roundhouse at the hands of Eddie Moy was a pretty good one. Eddie is a speedy little fellow, and has great hitting power. Of course he hasn't laid out any of his sparring partners yet, but he has shown a few things that are sure signs of a champion. Moy is a serious little worker, going about his business in a busy manner, never making a mistake, and never trying to display any fancy wrinkles. Something of the same kind is his coming opponent, Frankie Burns. Moy is bound to give Burns a tough battle. Frankie Burns is a middleweight, and has been playing the sport for some time. He has a good straight left, and if there is one thing that will bother Burns, that is the punch. Short left jab will take the heart out of Burns, and if Moy displays the same skill as he showed against his sparring partners yesterday, the prize of Oakland will have a hard time squelching the hopes of an aspiring lightweight.

Most of Frankie Burns' battles during the last year or two have been against aspirant lightweights, and Frankie usually makes them forget all about their dreams of the championship. He just takes the heat out of the ring, and if Eddie Moy can get by in his coming 15-round battle, there will be another lightening fight.

Johnny Kilbane has issued a challenge to Frankie Burns, and asks to meet the champion at the ring, and there is about as much chance of the champion making that weight for Kilbane as there is of Ritchie retiring.

Al Kaufman and Tom McMahon, heavyweights who will meet at the Friday night show at Dreamland pavilion complete their training today.

Joe Chip is scheduled to meet Solder Meason, these two bouts featuring an eight even card.

Jimmy Duffy has brought up his victory over Freddie Welsh as proof that he should be given a chance with the champion, Jimmy Duffy, and there is about as much chance of the champion making that weight for Kilbane as there is of Ritchie retiring.

Packer McFarland has announced that he will train to 135 pounds and challenge the champion.

Al Rodgers and Sammy Good, two of the best of the local boys, have decided to take a throw at the game in Seattle, and will leave for the North today.

The Question Box

To the Sporting Editor: (1) With a runner on second base, the batter hits a fly ball. The runner, thinking he could score, started home, but the left fielder threw him out. The runner declared the batter a hit. Should the first baseman be charged with an error or the batter a hit? (2) When a batter strikes out, but the catcher is behind the plate, should the play be scored, both in the box score and summary? (3) If a catcher throws too late, does the pitcher get a strikeout?—M. M.

(1) No stolen base can be credited, and as it is very seldom a batter is thrown out on a drive to left field why throw the batter a hit? (2) A hit. (3) It should be scored as a strikeout for the pitcher, an assist for the catcher and a putout for the first baseman, providing he is thrown out. (4) Yes.

To the Sporting Editor: With a runner on first base the pitcher throws the ball to the first baseman, but fails to get the runner. The ball is returned to the pitcher with one foot on the slab, but instead of delivering the ball to the batter he throws it to the third baseman. Did he make a balk?—H. H.

To the Sporting Editor: Is there any way possible for a batter to reach first on a balk?—Frank Cies.

Yes, if it is a fourth ball.

To the Sporting Editor: (1) With the bases empty, the batter hits a line drive through the pitcher. The ball hits the umpire on the foot and deflected into the shortstop's hands who threw to first ahead of the runner. Is the runner out or safe? (2) What is the rule on a runner turning to the left on reaching first base if he makes no attempt to go to second?—E. S.

(1) The runner gets a base hit. (2) The runner may turn in any direction as long as he returns immediately and makes no effort to reach second.

DIAMOND FLASHES

Besides pitching some very good ball yesterday, Dutch Klawitter lined out three of the run-getting hits, which is some training in with the Oaks.

A Seal fan said that a nice weather day at Bwing field was like a victory for the Oaks, a very scarce article. The Oaks have now won two straight, but who ever heard of two good days at Bwing field.

Ness was out of the game yesterday.

Billie Menges played the sportiest game in the history of the Oaks, and was shown in his work. Manager Christian thought Jack needed a few days rest.

Billie Menges handled three chances yesterday, two of which were hard ones. The new infielder did not break into the hit column, but got away with a sacrifice when one was needed.

With the exception of a partly excusable boot by Gus Heeling in the ninth inning, the Oaks played air-tight ball.

Kane received three chances in centerfield in the fourth inning, making three putouts from flies by Zacher, Helling, and Guest.

Doc White lasted only six innings against the batting of the Oaks, and his successor, "U. S." Smith, fared no better.

Klawitter struck out nine men, Littell falling three times before his service, while both Car-ale and McCardie whiffed the air twice.

Arbogast broke into the line-up and caught a good game, the Tigers stealing but one base. He also made three hits, one of them going for a triple.

Hogan's men could do nothing with the service of Klawitter until the seventh inning, when they were out of the field, was advanced by a wild pitch, and scored on Blies' single to right.

In the eighth the Tigers got two on with none down, but the Oaks tightened up and retired the side with no damage.

Melton, batting for Smith in the ninth, took first on a bad throw by Heeling, was advanced by Car-ale, and scored by Leard's single. The next two men were retired, and the Oaks had another victory to their credit.

Dave Gregg, brother of Vean Gregg of Coast and National fame, has been released by the Spokane club to the Edmond club of the Western Canada league.

A bad bound taken by Downs' drive in the seventh inning put the ball out of Lober's reach, and brought in the winning run for the Oaks, incidentally putting Howard's men in third place, and slipping the Beavers into the second division.

O'Leary proved the hitting Seal of the day, helping to tie the score, and starting the seventh inning rally which ended in disaster for the Beavers.

Harry Kraus battled over both of the first two innings, and was out of the game after doubles by Ryan and Kores.

Someone mentioned that all that was the matter with Cook was "too many cooks." It looks like all that was the matter with Cook was "too many cooks." Do not off a single, a double and a triple in yesterday's games between the Wolves and the Angels.

Two wild throws in the second inning allowed two Angel scores.

Arrellane, relieving Stroud in the eighth, was touched for two walks, three singles and a couple of sacrifices.

Peritt was hit as often as Stroud and Arrellane combined, but managed to keep the safeties scattered.

Del Howard delivers himself of the following in regard to the Klawitter-Malarkey-Cook trade:

"Smiling down to pitchers," he said, "Malarkey won twenty-five games with a tail-end club last year and Klawitter only sixteen with a second-place club. Both are going badly this season. Klawitter is younger but does not take care of himself, and Malarkey does. Think it over."

As a result of the trade whereby the Oaks got Malarkey, Coachman will return to the Seals.

Mitte and Alexander were both feeling a little under the weather yesterday. The ball is returned to the Tigers' catching staff is also out of the game.

A match for Billy Orr's grabbing of the line, released yesterday by Manager Herzog.

Rumors of a big deal in the Cincinnati club are circulating today, and will probably break in the next twenty-four hours.

Eddie Moy, Burns' Next Opponent

Western Swimmers Have Learned Important Lessons From Visitors

(By ERNIE SMITH, Holder 100-Yard Collegiate Record.)

That an increase of interest in swimming will result from the visit of the Illinois and Hawaiian swimmers is the opinion of the followers of the sport in this locality. Many new ideas have been placed upon which retarded the development of speed in western swimmers, and numerous advantages have been observed in the methods of training and style of the Chicago cracks.

In the west we have been floundering in the midst of swimming terms which we have been unable to define. One swimmer may claim to be using the "Australian Crawl," and another may say that he swims the "American Crawl," yet on questioning neither can probably distinguish between the two styles. Much of this confusion has been cleared by the lucid explanations of Wm. Backrach, the Illinois coach and aquatic expert.

"All crawl strokes are of the leg thrust in the place of a scissor kick was introduced first in Sidney, Australia, by Sid Cavill. The story of the first race in which the crawl stroke was employed was told me by Cecil Healy, erstwhile champion of Australia, and C. M. Daniels, chief competitor at the Olympic games in Athens in 1906," said Backrach. "The Cavill brothers, Richard and Sid, were at the time of the incident the fastest swimmers in the Antipodes and were great rivals. Sid had made a tour of the South

AMERICAN ATHLETES WIN.
COPENHAGEN, July 8.—American athletes won from their London 4th of July triumphs, scored several wins at the athletic games in the stadium here. W. M. Older Jr. of the New York Athletic club won the high jump, James Patterson of the University of Pennsylvania, won the final heat in the 800 meters, and the American team captured the relay race.

When along comes "Dutch" Klawitter, whose batting average as a Wolf was minus 7, and he raps out three hits in four times at bat, by way of celebrating his first day in an Oakland uniform. By this way of figuring Ed Klawitter is due to celebrate his "first day in Wolfville" by twirling a no-run, no-hit game.

Oakland fans and club owners will be glad to see both Malarkey and Burns get off to a good start as both men were loyal to Oakland always, and both deserved better luck than the club received. Burns was a great player, and showed to advantage recently, and Tyler Christian, Frank Leavitt and Jack Cook all hope that the two former Oaks will win every game in which they participate and are no opponents of Oakland.

Joe Gedeon has apparently been lost.

PING BODIE BREAKS COME-BACK RULE

Ping Bodie, the fence buster, is the original combination of the goat and the cat with nine lives.

It's just as well that Ping isn't the former possessor of the traits of the latter.

If he had less come back ability he would have been in the minors long ago.

Here is what happens to Ping half a dozen times in a season. He misjudges a fly ball and loses a tough game. He is benched immediately and all the fans say "Well, Ping, you gave us many a bang, and we hate to see you go."

Three days later Ping is called on to pinch. He hits one and is immediately a popular hero.

In the next series he hits one against the fence, falls as he rounds second base, can't scramble to safety and is called out. Once more he is benched.

Everybody likes Bodie. He sits on the bench and they send a recruit to the outfield. Bodie is called upon in the pinch, goes into the box, wins, loses or draws, and he is restored to popular esteem again.

A few days later you ask Manager Fitzsimmons where the recruit is. "Oh, he's gone to —" and then he tells you some place you didn't know was on the map.

Ping comes along at a great rate until some afternoon, when he comes up to bat. Of course, the game is lost and he is benched. Then the fellow who takes his place breaks a leg or contracts some illness and they have to have Ping. He whistles out a bunch of hits and every one forgets about the other fellow.

It's a safe wager that Ping has had more successes than any man in baseball. But he always comes back. He's been threatened with the minors often but has never been there.

Dave Jones, Shaler, Forman are only a few of the fellows who have taken his job.

Just the same, you go right along reading that "Bodie hit the longest double on record." "Fence Buster benched again." "Walters wins game with vicious swing." "Walters asked for Bodie."

AND AFTER THAT HE COULDN'T BAT

Hughie Jennings has a yarn that illustrates his confidence helps a ball player. "I've had a young fellow last fall," he remarked, "who had not seen the big show before I used him against Washington. He was a good fellow, but he looked foolish trying to bat, and he struck out."

He watched Johnson pitch the first inning and then, turning to Crawford, he said:

"I'm Johnson much faster than this fellow."

"Sam caught the idea, and replied: "Oh, yes. This fellow has some speed; but there isn't anything on his fast out."

The kid trotted up to the plate the first time up and cracked out a hit. The second time up he drove out another hit. Then he learned that he was batting against Johnson, and the last time up he looked foolish trying to bat, and he struck out."

VANITIE LOSES HER FIRST REAL TEST

NEWPORT, R. I., July 8.—After leading throughout the contest, the cup class yacht Vanitie lost the first of the actual trial races for the defense of the America's cup sailed off here, the Resolute winning on her time allowance by one minute and 15 seconds.

Three miles from the finish of the 30-mile windward and leeward course, the Vanitie had the race apparently well in hand, but the Resolute, bringing up a freshening breeze out the lead of the Cochran yacht to 30 seconds at the time.

The Defiance, the third cup candidate, broke down this forenoon when she was ably with race today.

DIAMOND FLASHES—

Bolton Clemens is certainly hitting the ball some in the Texas league. From watching the papers from that section, it appears that the four out of five is almost a daily performance for the ex-Oak.

Billy Fitz Says, Says he:

"A rose by any other name might smell as sweet," but when a ballplayer changes his name, it's a different story.

fountain of Ponce de Leon. The Oaks are worshipping the failure of Joe to show his last Washington eight days ago heard from him since.

At last word comes from Art Devlin. The former Oakland boy is back to his first love—the New York polo grounds. He is working out daily and looking for a chance to play first base for some club that needs a chap of his ability. He has expressed a willingness to join the Yankees, and Frank Chance may utilize him as coach and utility first-sacker.

Leave it to Oakland to pick the "big" league leaders. The Oaks may not be able to get into the first division themselves, but they are going to have some rare old sport before the season is over by ranking ambitious clubs out of the upper berths. As first division wreckers the Oaks are in a class by themselves. They pulled the Seals out of the lead, yanked the Tigers off the top of the heap twice, spilled the Angels another time and can be counted upon to beat the best club and lost to the weakest at every opportunity. The Oaks are the real "Spoilers" of the league.

It all depends upon how you look at things. Now comes Freddy Welsh with the diplomatic announcement that "Ritchie is a great fighter. With true modesty Welsh declines to say who is better than Ritchie."

On the other hand, Al Wolcott rises in his seat at Los Angeles to observe that he is glad Welsh beat Ritchie because the title is now held by a "white man." Ouch!

Blame for Negro Champion Can Be Laid to McIntosh

Jack Johnson heavyweight champion of the world, the only one to have held the honor, over his title to Hugh McIntosh, the former Australian fight promoter, who practically had a monopoly on the boxing business in Australia until he sold out his interests last fall to "Snowy" Baker.

Perhaps it would be more correct to say that McIntosh had the opportunity to become champion. McIntosh matched Johnson with Tommy Burns for the bout in Sydney, Australia, and it was McIntosh who Johnson lifted the crown.

The match came after persistent challenges by Johnson, who was then a champion, and Burns did not care to meet the negro. Many pugilistic writers, however, were hounding Burns and charging him with a cowardly attitude. Burns was a title by an easier route than any previous holder. Burns was disinclined to meet a negro, and McIntosh was a promoter who was not to be outdone.

So when pressed into a corner by conditions in Australia and practically forced into a match, Burns decided to go. He hoped no promoter would risk that sum.

McIntosh accepted the financial obligation. The rest is history. Johnson beat McIntosh in the Sydney ring until the police stopped the unequal match in the 14th round. No white pugilist has been able to stop Johnson since.

There is no question that Johnson's influence has had an unfavorable effect on boxing in this country, not only because of the prejudice against the negro, but because of the prejudice against the black race in a large section of the United States.

That bout between Johnson and Burns, however, made McIntosh in Australia as a pugilistic promoter.

According to his own statement, he sold the moving picture rights of the battle in England for \$150,000. He received \$150 a week for 40 weeks in the United States for talks on the bout, and he attended a world-wide reputation as a promoter which enabled him to attract the Australia boxers from all over the world to appear in bouts and tournaments for the sport-loving people of the antipodes, whose appetites have been stimulated by leveling what had been their first heavyweight championship encounter.

McIntosh practically was czar of boxing in Australia from the time of this bout until last September, when he sold out his rights and rights.

PARK BOWLERS HAVE "OAKLAND DAY"

It was an Oakland day on the Golden Gate yesterday afternoon when the two of the four inter-league tournament teams of the Oakland Scottish Bowling Club that crossed the bay to play a friendly match with corresponding teams of the San Francisco Scottish Bowling Club in the afternoon meeting of their opponents handsomely on their own rinks.

It was a bleak and chilly afternoon, the fog pouring in from the ocean over the green and gold of the park, but the advantage of relieving the green of the deep shadows which the surrounding forest trees cast over its surface in the afternoon was more than made up for by the weather, and which have always perplexed Oakland players considerably on previous occasions. The moist atmosphere, however, made the rinks somewhat slippery for bowling.

The Oakland players quickly mastered the peculiarities of the green and, being all in good form, took the lead on each rink at the start and maintained it to the finish of the match. J. A. C. Macdonald accompanied the Oakland teams as a substitute in the event of a vacancy occurring in the ranks. The teams were, however, complete and one of the San Francisco teams generously made a place for him, and he proved a valuable addition to it through his excellent play.

The opposing teams lined up as follows:

RINK NO. 1.
Oakland—Dr. E. R. Sill, 1. Robert Dalton, 2. Major Henry Hume, 3. Robert Howden (skip).
San Francisco—W. P. Higginbotham, 1.

RINK NO. 2.
Oakland—George R. M. Gray, 1. J. C. Burpee, 2. Tal. Evans, 3. James P. Taylor (skip).
San Francisco—J. Deasy, 1. J. A. C. Macdonald, 2. D. O. Brian, 3. George Jones (skip).

The score stood as follows at the close of the 21 ends:

Taylor team 127 011 100 021 401 120—21
Jones team 060 100 010 012 200 010 003—12

Taylor scored on 14 ends, Jones on 7 ends.

Taylor team won by 9 points, Howden team by 11 points.

The Oakland bowlers hope to be in as good form on Saturday, August 1, as they were yesterday afternoon, in which event they are likely to give a good account of themselves in the final match of the cup and bay district championship tournament, which will be played that day with the San Francisco bowlers.

COMPLETES ASSESSMENT ROLL RECAPITULATION

Schedule Shows Property of \$252,700,-
655; Gain, \$2,275,714

Assessor C. F. Horner has completed the recapitulation of the assessment roll of the county of Alameda for the year 1914. The schedule shows in detail the assessment of real estate, improvements, personal property, solvent credits and total of all the subdivisions of the county, making a total assessment of \$252,700,655 against \$250,424,941 for the year 1913, showing a gain for year 1914 over that of 1913 of \$2,275,714.

An analysis of the above table shows that Assessor Horner has been working diligently to equalize the assessments throughout the county. On taking office, he found that the assessment of improvements throughout the county was remarkably high in comparison with the assessment of improvements in other counties.

Improvements not begun.

In checking up the permits given for improvements and alterations of buildings, he finds that a great many while taking out permits, have not as yet commenced or completed the structures for which permits were taken, and that permits for alterations, as a rule, were simply for the repair of old buildings and added virtually nothing to the value of said improvements as far as the assessment was concerned. There are a great many old buildings throughout the county, built thirty or forty years ago, possibly should have received a further reduction; but as the time is limited in getting out the assessment roll from March to July, they could not be looked into as carefully as they should have been, and next year these improvements will be taken up and re-surveyed and possibly a new valuation given thereon.

Real estate readjustment.

Real estate: The readjustment of the values of real estate, has entailed a vast amount of work, and the assessor and his

deputies have been kept busy for the last year readjusting these values so as to make as near as possible, an equalized assessment. In doing this, Mr. Horner found that the re-adjustment had increased the assessment roll of real estate \$10,985,590, which is a little more than the loss in the re-adjustment of improvements.

The personal property assessment shows a gain of \$1,135,076. Money and solvent credits shows a loss of \$407,861, which loss is simply due to the money stringency, banks, merchants and individuals not carrying balances on bank as heretofore. The total gain of the county which is remarkable under this showing and re-adjustment, is \$2,275,714, showing a wonderful progress.

EDDING VALLEY ASSESSMENT.

Assessor Edding Valley Water Company for its riparian rights, the same as heretofore, and has copied into the assessment roll all their old deeds for water rights, some of which were recorded back in 1886. All other corporations as well as individuals have been assessed equally and uniformly.

It will be noticed that the taxable property of the city of Oakland from which revenue will be obtained on the county rate, is \$145,724,300, and it must also be remembered that the state will withdraw from the city of Oakland, \$476,000 which for state purposes, corporate property of the value of \$15,101,000, and that the holders' exemption withdraws from tax in the city of Oakland, \$375,000 which makes a total assessment of the property of the city of Oakland, excluding all municipal, county and state property and exemptions of church properties, a total of \$151,200,100.

Assessor Horner is now preparing maps of the whole county, which will in time be reduced to magazine form and bound and placed before the public, showing the assessed value of all property within the county.

The recapitulation of property valuation is as follows:

	Value of Real Estate	Value of Improvements Thereon	Value of Personal Property, except Solvent Credits	Amount of Money and solvent credits	Total value of all.
City of Alameda	\$ 8,889,300	\$ 6,337,550	\$ 1,346,425	\$ 20,865	\$ 16,594,140
City of Alameda	1,553,750	182,250	48,750		2,219,750

Gain 1914 over 1913	\$10,344,960	\$10,576,039	\$1,124,076	\$1,602,639	\$22,275,714

KEY ROUTE MUST VACATE TWELFTH

That there is no intention on the part of the city council to extend the 76 day permit recently granted to the San Francisco-Oakland Terminal railway to run the Key Route cars down Twelfth street to Broadway, was the substance of the report by the city council to the West Oakland Taxpayers and Businessmen's association, today.

The association protested against allowing the big Key Route cars in Twelfth street, and declared its belief that it was the intention of the council to extend the permit from time to time. Commissioner Turner declared this fear to be groundless. The communication from the association was signed by C. L. Wines, secretary. The routing of the cars down Twelfth is to be discontinued when the reconstruction of the roadbed is completed between Jefferson and Fallon streets.

STREET WORK. Routine street matters were passed by the city council today as follows: Directing the city engineer to prepare an ordinance establishing grades on Alameda avenue, between Courtland avenue and Montebello avenue.

Granting permission to the San Francisco-Oakland Terminal railway to reconstruct the tracks on Fruitvale avenue from East Fourteenth street to the Southern Pacific right of way.

Granting the San Francisco-Oakland Terminal railway permission to reconstruct the granite curb at the northeast corner of Twelfth and Oak streets.

Authorizing the bureau of permits and licenses to issue permits for cement sidewalks five feet in width on Damuth street, between Fruitvale and Lincoln avenues.

Granting Bates, Bonland & Ayer permission to grade, curb, gutter, macadamize, sidewalk, etc., Lake Shore avenue from Winsor avenue easterly to the eastern terminus thereof.

Approving bond of the Standard Oil Co. to supply screened washed gravel for the street department for the fiscal year ending June 30, 1915.

Accepting deed from George W. Cook dedicating land for street purposes.

Accepting deed of Booth-Pedrick Realty company conveying to the city of Oakland the lot on which the street department for the fiscal year ending June 30, 1915.

Granting F. Macdonald permission to reconstruct the sidewalk on California street, between Laurel and Alameda streets.

COURT TO VALUE LOVE OF WOMAN

A lengthy hearing, according to attorneys, will be the result of the alienation suit filed yesterday by Charles G. Fries, an electrician, in which he accused Martin Fibush, also an electrician, with seducing the affections of his wife, Mrs. Louise Fries. The suit evaluates the love of Mrs. Fries at \$50,000 and follows a divorce suit in which Fries, on complaint, handled by Court Commissioner Clarence Crowell, was awarded an interlocutory divorce decree last February. The case was not heard in court, the findings of the commissioner being transmitted to the judge. Mrs. Fries did not contest.

An inkling of the contents of the complaint, however, are given in the alienation suit, which brings several charges against Fibush. Fries, who is employed by the Levy Electrical Company of San Francisco, cites two counts on which damages are asked, one a charge of alienation of the woman's affections, for which \$25,000 is asked, and the other a charge that Fibush prevented her from returning to her husband, for which an additional \$25,000 is claimed.

Fries and his wife were married in Ogden, Utah, in 1912, and moved to Oakland in 1907, when they made their home at 91 Laurel avenue. There is one child, now ten years of age. Fries and Fibush worked together at the Levy establishment until two years ago.

Mrs. Fries, it is declared, left her husband to return to her relatives at Houston, Texas, but is now living in Berkeley.

Fries declares that he has letters in which Fibush called his wife "Sweetheart" and other endearing names. He declares that on one occasion he ordered Fibush from his house.

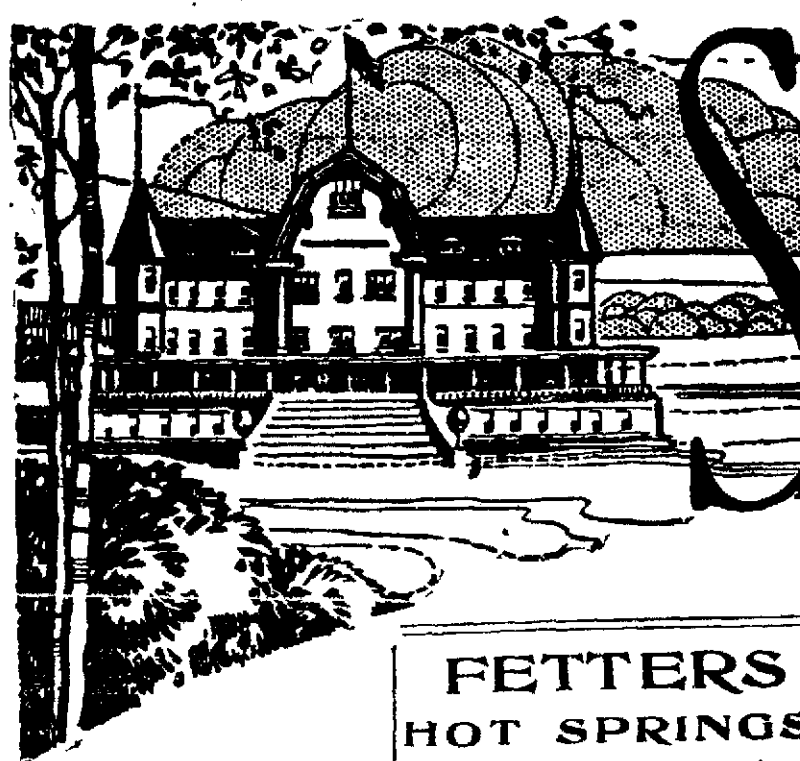

BANK IN MUNDAY CHAIN REOPENS AFTER FAILURE.

BETHLEHEM, Pa., July 9.—The Farmers Bank of Bethlehem, one of the chain of Munday banks, closed after the failure of the La Salle Street Trust & Savings Bank of Chicago, reopened today in charge of John Scullin, a representative of the state banking department. Munday has resigned the presidency.

CITROLAX FOR CHILDREN. CITROLAX for infants and delicate ones. Children love to take CITROLAX. It tastes like lemonade and is the nicest physic in the world for them. A grown-up writes: "It gives the best finishing of any cathartic I ever used." and an invalid says: "It suits me exactly; its action is so mild, yet thorough, I cannot afford to do without it. Nothing better for constipation, indigestion, stomach, bad breath or biliousness. Stops headache quickly. Sold everywhere."

FIFTEEN INJURED IN
FURNACE GAS EXPLOSION

CLEVELAND, Ohio, July 8.—Fifteen men were injured, five probably fatally, when an explosion in a furnace of the Cleveland Machine Iron company here today killed three of the injured.

"Will Patricia Have a New Coat For Her Outing?"

"Oh, I'm Sure She Will, for Patricia Buys Her Clothes on CREDIT."

"Well, now, Diane, that's splendid. I've been interested in this Credit proposition for some time, and now you can tell me how it works for girls like you and Patricia and me."

"Fine, Blanche, simply great. I've tried it myself and I never knew before that buying for clothes could really be a cheerful operation. A few dollars each week, or each month, is the way you manage it. The Coat I bought at Cherry's last week cost just \$10.95. And my waist, Blanche, cost only \$5.95."

Diane, before my size in the prettiest of those Coats is gone. Is it true that their Suits are reduced, too?"

"Yes, some of them as low as ONE-HALF. You know Cherry's address, I suppose, Blanche. It's 515 13th street, and I know you will be highly pleased with the stylish garments you find there. The exclusive men's store is just across at 528 13th street. The San Francisco stores are at 1009 Market and 2400 Mission street."

BASEBALL UMPIRE TO FACE FORGERY TRIAL

SAN JOSE, July 9.—H. E. Spencer, a San Francisco baseball umpire, accused of obtaining money from the First National Bank of San Francisco by having Mrs. Tessie Wise, a pretty manicurist, impersonate his wife last December, is to be tried before a jury in the Superior Court Monday morning. The case has been delayed from time to time owing to the illness of Spencer's real wife, who will be called as one of the most important witnesses for the defense.

Spencer, together with Mrs. Wise, was arrested on a forgery charge after attempting to cash a \$1000 draft on the First National Bank in San Francisco, where Mrs. Spencer had an account, at the First National Bank in this city. The sum of \$200 was finally advanced.

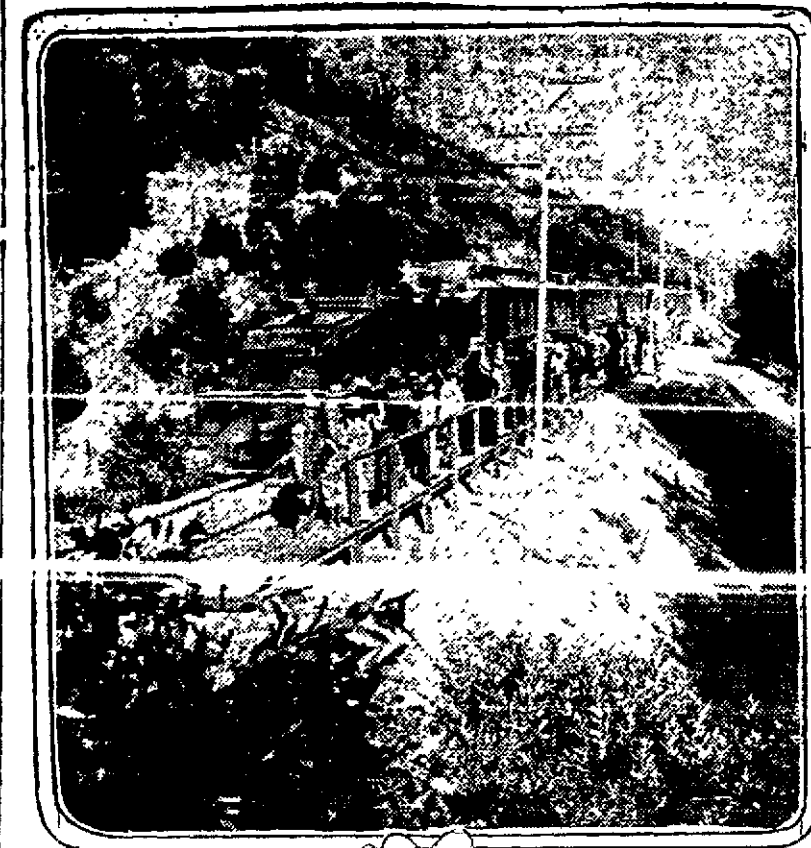

Mrs. Wise was called as a witness for the state at the preliminary examination of Spencer, and testified that she had visited San Jose with the umpire, and that he had informed her that his name was best in the name of Mrs. Florence Anderson. Mrs. Spencer's name prior to her last marriage, and for this reason she did not hesitate to sign that name to a check at the instance of Spencer. The case promises sensational. Many people prominent in the cafe life in San Francisco a couple of years ago have been subpoenaed.

ROOSEVELT URGED AS PROPER CANDIDATE

NEW YORK, July 9.—Theodore Roosevelt in the presidential chair is the only hope for the United States, in the opinion of former Governor H. S. Hadley of Missouri.

"Roosevelt in six months could settle the entire tangle that con-

OUTING SPOTS ARE NEAR CONTRA COSTA CHARMS

PICNIC CROWD AT ONE OF THE POPULAR OUTING RESORTS ON LINE OF OAKLAND, ANTIOCH & EASTERN RAILROAD.

The fact that on the other side of the Berkeley hills in Contra Costa county one always finds the sun shining these days, together with the knowledge of the numerous pretty canyons there, is responsible for the many week-day and Sunday pleasure parties that are taking in the newly-opened district which lies so close to Oakland and which owes so much of its development to Oakland people and to the Oakland, Antioch & Eastern Railway's frequent electric train service. The two most popular points visited by these pleasure-seeking parties are Redwood Canyon and Diablo. Redwood Canyon is a natural picnic ground, plentifully wooded with shrubs, ferns and brook, 20 minutes ride from Oakland.

Diablo is at the foot of Mount Diablo, 35 minutes' scenic electric railway ride from Oakland. Saddle horses may be engaged in advance at \$2 per day. A climb to the summit of Mt. Diablo is easy and delightful and the view wonderful and inspiring. For those who desire to go further inland, the Capital City trip invites one to Sacramento, a beautiful trip through canyons, valleys and meadows, passing close by Mt. Diablo, following the Suisun bay and the Sacramento river. A visit to Sacramento's hotels, Capitol grounds, Sutter's Fort, Riverside Drive and Art Gallery is well worth while. The Art Gallery at Sacramento is said to contain more works of the old masters than any other collection in the West.

WARSHIP DISPATCH SENT BY AEROPLANE

WASHINGTON, July 9.—Dispatch carrying by aeroplane, for the first time in the history of navy aeroplanes, was reported yesterday from the battleship Mississippi. When the Mississippi was twenty-five miles off the Virginia capes several days ago Lieutenant Bellinger and Ensign Stolz rose 4000 feet and flew to Fortress Monroe with an important message which badly working wireless had failed to transmit.

AMERICAN DEFENDERS FOG-BOUNDED AT NEWPORT

NEWPORT, R. I., July 9.—The three American cup yachts, Resolute, Valiant and Defender were fog-bound in Narragansett harbor today and the regatta committee at 12:30 declared the contest postponed.

SHIP EDWARD SEWALL ENCOUNTERS TYPHOON

HONOLULU, T. H., July 9.—The American ship Edward Sewall, 204 days out from Philadelphia for Seattle, arrived yesterday short of provisions and badly battered from an encounter with a typhoon.

A series of severe storms was met by the Sewall after leaving Bahia Blanca, Argentina, February 27. After repairs the ship ran into the typhoon and lost much canvas. It was necessary to repair the hull. Rough weather and contrary winds buffeted the ship until the Hawaiian Islands were sighted.

FOUR HOLD-UPS ARE BOYS. SAN FRANCISCO, July 9.—James State, 274 Fourth street, was held up by four youthful footpads on Third street near Mission, early this morning and robbed of \$1 in coin.

HERE'S DATA OF U. S. RECORD CROP

Idea of Magnitude Is Gleaned From Report of Agriculture Department.

WASHINGTON, July 9.—The first idea of the size this year of the country's greatest farm crop, corn, was given today when the Department of Agriculture issued its report showing the acreage, condition and estimate of the number of bushels of corn which condition reports indicate will be produced. More definite figures as to the size of the great wheat crop, the largest ever grown, also were given, as well as the first idea of the size of the potato, tobacco and rice crops.

Details of the acreage, condition on July 1, indicated acre yield and total production of the various crops, follow:

Winter wheat: Area planted, 35,387,000 acres, compared with 31,699,000 acres last year. Condition, 94.1 per cent of a normal, compared with 92.7 per cent on June 1, 81.6 per cent on July 1 last year, and 89.2 per cent, the 10-year average on July 1. Indicated yield 18.5 bushels per acre, compared with 16.5 bushels last year and 15.6 bushels, the average for the past five years. Estimated total production, 655,000,000 bushels, compared with 638,000,000 bushels, the June forecast, 523,681,000 bushels produced last year, and 447,000,000 bushels, the average for the past five years.

SPRING WHEAT PRODUCTION.

Spring wheat: Area planted, 17,990,000 acres, compared with 18,485,000 acres last year. Condition, 82.1 per cent of a normal, compared with 85.4 per cent on June 1, 73.5 per cent on July 1 last year and 84.4 per cent, the 10-year average on July 1. Indicated yield 15.3 bushels per acre, compared with 13.0 bushels last year and 12.3 bushels, the average for the past five years. Estimated total production, 275,000,000 bushels, compared with 252,000,000 bushels, the June forecast, 238,319,000 bushels last year and 245,400,000 bushels, the average for the past five years.

All wheat: Area planted, 53,377,000 acres, compared with 50,184,000 acres last year. Condition, 88.4 per cent of a normal, compared with 89.7 per cent on June 1, 78.5 per cent on July 1 last year and 81.7 per cent, the 10-year average on July 1. Indicated yield 17.4 bushels per acre, compared with 15.2 bushels last year and 14.3 bushels, the average for the past five years. Estimated total production, 930,000,000 bushels, compared with 900,000,000 bushels, the June forecast, 753,390,000 bushels last year, and 688,000,000 bushels, the average for the past five years.

The amount of wheat remaining on farms July 1 is estimated at about 22,236,000 bushels, compared with 25,515,000 bushels on July 1, 1913, and 23,876,000 bushels on July 1, 1912.

GREAT CORN YIELD.

Corn: Area planted, 102,967,000 acres, compared with 105,520,000 acres last year. Condition, 85.8 per cent of a normal, compared with 86.9 per cent on July 1 last year and 84.7 per cent, the 10-year average on July 1. Indicated yield, 57.3 bushels per acre, compared with 52.1 bushels last year and 53.3 bushels, the average for the past five years. Estimated total production, 5,900,000,000 bushels, compared with 5,490,000,000 bushels, the June forecast, 4,753,390,000 bushels last year, and 4,131,000,000 bushels, the average for the past five years.

Barley: Area planted, 7,523,000 acres, compared with 7,499,000 acres last year. Condition 92.6 per cent of a normal, compared with 95.5 per cent on June 1, 1914, 76.6 per cent on July 1 last year and 83.7 per cent, the 10-year average on July 1. Indicated yield 28.0 bushels per acre, compared with 23.8 bushels last year, and 24.3 bushels, the average for the past five years. Estimated total production, 211,000,000 bushels, compared with 206,000,000 bushels, the June forecast, 178,000,000 bushels last year and 182,000,000 bushels, the average for the past five years.

RYE ABOVE AVERAGE.

Rye: Condition, 92.9 per cent of a normal, compared with 93.3 per cent on June 1, 1914, 83.6 per cent on July 1 last year and 89.5 per cent the 10-year average on July 1. Indicated yield, 17.2 bushels per acre compared with 16.2 bushels last year and 16.1 bushels, the average for the past five years.

White Potatoes: Area planted, 3,708,000 acres, compared with 3,658,000 acres last year. Condition, 83.5 per cent of a normal, compared with 86.2 per cent last year and 83.7 per cent, the 10-year average on July 1. Indicated yield, 96.1 bushels per acre, compared with 90.4 bushels last year and 97.1 bushels, the average for the past five years. Estimated total production, 356,000,000 bushels, compared with 332,000,000 bushels last year, and 357,000,000 bushels, the average for the past five years.

Sweet Potatoes: Area planted, 593,000 acres, compared with 626,000 acres last year. Condition, 77.1 per cent of a normal, compared with 86.3 per cent last year and 87.3 per cent, the 10-year average on July 1. Indicated yield, 84.0 bushels per acre, compared with 94.5 bushels last year and 92.7 bushels, the average for the past five years. Estimated total production, 50,000,000 bushels, compared with 53,657,000 bushels last year, and 58,000,000 bushels, the average for the past five years.

SMALLER TOBACCO YIELD.

Tobacco: Area planted, 1,510,000 acres, compared with 1,510,000 acres last year. Condition, 68.0 per cent of a normal, compared with 82.8 per cent last year and 84.6 per cent, the 10-year average on July 1. Indicated yield 9.1 bushels per acre, compared with 7.3 bushels last year and 7.8 bushels, the average for the past five years. Estimated total production, 13,900,000 pounds, compared with 18,000,000 pounds last year, and 20,000,000 pounds, the average for the past five years.

Flax: Area planted, 1,937,000 acres, compared with 2,291,000 acres last year. Condition, 80.0 per cent of a normal, compared with 82.0 per cent last year and 95.8 per cent the 10-year average on July 1. Indicated yield 9.1 bushels per acre, compared with 7.3 bushels last year and 7.8 bushels, the average for the past five years. Estimated total production, 18,000,000 pounds, compared with 18,000,000 pounds last year, and 20,000,000 pounds, the average for the past five years.

Ram: Area planted, 244,000 acres,

ATLANTA, Ga., July 9.—Differences between Governor Cole

of South Carolina and the war department at Washington have resulted in the governor's determination to refuse North Carolina state troops permission to pass through South Carolina on their way to the proposed joint militia encampment at Augusta, Ga., next month, it was learned here today.

The war department recently withdrew an invitation to the South Carolina militia to participate in the encampment because the troops did not meet requirements of the Dick militia law in the matter of equipment and number of men enlisted.

Don't Poison Baby.

FORTY YEARS AGO almost every mother thought her child must have PAREGORIC or laudanum to make it sleep. These drugs will produce sleep, and A FEW DROPS TOO MANY will produce the SLEEP FROM WHICH THERE IS NO WAKING. Many are the children who have been killed or whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labelling them "poison." The definition of "narcotic" is: "A medicine which relieves pain and produces sleep, but which in poisonous doses produces stupor, coma, convulsions and death." The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrups," etc. You should not permit any medicine to be given to your children without you or your physician know of what it is composed. CASTORIA DOES NOT CONTAIN NARCOTICS, if it bears the signature of Chas. H. Fletcher.

Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. J. W. Dinsdale, of Chicago, Ill., says: "I use your Castoria and advise its use in all families where there are children."

Dr. Alexander E. Mintie, of Cleveland, Ohio, says: "I have frequently prescribed your Castoria and have found it a reliable and pleasant remedy for children."

Dr. Agnes V. Swetland, of Omaha, Nebr., says: "Your Castoria is the best remedy in the world for children and the only one I use and recommend."

Dr. J. A. McClellan, of Buffalo, N. Y., says: "I have frequently prescribed your Castoria for children and always got good results. In fact I use Castoria for my own children."

Dr. J. W. Allen, of St. Louis, Mo., says: "I heartily endorse your Castoria. I have frequently prescribed it in my medical practice, and have always found it to do all that is claimed for it."

Dr. C. H. Glidden, of St. Paul, Minn., says: "My experience as a practitioner with your Castoria has been highly satisfactory, and I consider it an excellent remedy for the young."

Dr. H. D. Benner, of Philadelphia, Pa., says: "I have used your Castoria as a purgative in the cases of children for years past with the most happy effect, and fully endorse it as a safe remedy."

Dr. J. A. Boardman, of Kansas City, Mo., says: "Your Castoria is a splendid remedy for children, known the world over. I use it in my practice and have no hesitancy in recommending it for the complaints of infants and children."

Dr. J. J. Mackey, of Brooklyn, N. Y., says: "I consider your Castoria an excellent preparation for children, being composed of reliable medicines and pleasant to the taste. A good remedy for all disturbances of the digestive organs."
